ARSENIC AND ROCK SALT ARE USED

Former Taken by Thousands in Yellow Fever Infected Section, the Latter in Use to Sterilize Stagnant Waters.

NEW ORLEANS, Aug. 23.—Report to 6 p. m.:

New cases, 53; total to date, 1,505; deaths, 5; total, 218; new foci, 10; total, 99; under treatment, 312.

Little variation from the steady improvement of the past week marked today's numerical record of the yellow fever situation. The quarantines formerly have been put on in a season of summer dullness and if they are taken off when trade becomes active the only inconvenience will come from the obstructions to the free movement of passenger traffic.

New Feature of Situation.

One of the features of the situation that is attracting attention is what are termed new foci in excess of the number of cases under treatment. It is an encouraging feature because it is an indication of a slow extension of the fever which is particularly true of the district above Canal street. In order to take no chances the authorities are not to cancel new foci until after 30 days have elapsed.

Large quantities of rock salt have been purchased by the federal authorities with a view to salting stagnant gutters and pools. Imperfect drainage exists in many of the wards due to the fact that the drainage system has not been completed. The salt is expected to destroy the pools as breeding places for mosquitoes.

Some of the soldiers stationed at the barracks are restless under their enforced quarantine. Communication with the city has been prevented and the appearance of fever in St. Barnard makes it probable that no communication with that parish will be allowed.

Use of Arsenic.

A freshly infected spot in St. Barnard parish was announced today.

Sensational reports have been sent from here as to th, hero worship of which Dr. Leach of Minnesota is the subject. Dr. Leach has been courteously received by the public in general. Many thousands of people here are taking arsenic and many would like to see an actual test of it. But there is no truth in the statement that the entire population is mobbing the doctor's hotel in the effort to have an audience with him.

INVESTIGATION OF INSURANCE

NEW YORK LEGISLATIVE COMMITTEE, HEADED BY SENATOR ARMSTRONG, WILL MEET TODAY.

NEW YORK, Aug. 23.—Senator M. Armstrong, chairman of the executive committee to investigate insurance companies, said tonight that the entire committee would assemble tomorrow and go to the office of C. E. Hughes of counsel to the committee to consult with him and Mr. McKeen.

In regard to the possibility of the selection of Charles G. Bennett by the committee, Senator Armstrong said:

"While it is true that we have not entirely surrendered all hope of getting Mr. Choate to act, it must be remembered that he has been out of the country for a long time and that his many interests demand a share of his present attention. However, I believe that he has not completely negatived the proposition to assist as counsel."

Senator Armstrong said that there had been no appearances filed with the committee by counsel for witnesses who it is expected are to be called.

"We do not propose to permit lawyers to use the time of the committee," said the senator, "in examining witnesses looking to their vindication. We are not after men; we are after conditions. It is our hope to restore public confidence in insurance, and not destroy or tear down reputations. There will not be such appearance of counsel."

DENVER MEN WERE INJURED IN WRECK

MANHATTO, Kas., Aug. 23.—Two Rock Island passenger trains collided in the yards today. The smoker on one was badly wrecked and several persons injured, one, F. E. Tracy, residence unknown, perhaps fatally. The three worst injured were taken to Lincoln, Neb., and placed in a hospital. They are: F. E. Tracy, badly hurt, may die; Fred Robarge, Denver, foot crushed and body bruised; John Burns, Denver, hurt internally.

IRRIGATION CONGRESS

NATIONAL IRRIGATION CONGRESS RESENTS METHODS OF IRRIGATION ASSOCIATION. REPUDIATES THAT BODY.

PORTLAND, Ore., Aug. 23.—The resolutions committee of the National Irrigation congress struck a second stumbling block at its meeting today over a resolution declaring that there is no connection between the National Irrigation congress and the National Irrigation association, an incorporated body, of whose board of directors C. W. Boothe of Los Angeles, is chairman. Mr. Boothe is also chairman of the executive committee of the National congress. Assertions were made that large sums of money have been collected in Chicago and points in the central west and in Montana by the association from manufacturers and others who have considered the association as identical with the parent body or congress.

Mr. Boothe resented any supposed insinuation that there has been any misrepresentation by him or by the association of which he was a director. Personalities were further injected into the discussion by the reading of an article reproduced from a St. Louis newspaper which in the opinion of several delegates left the impression that Mr. Boothe was allowing his name to be connected with the two organizations in a manner that brought inevitable confusion. It was stated by Mr. Boothe, and in his statement he was substantiated by committee members who had not before asserted themselves on the subject, that while not connected with the congress the association had promoted the congress, and that during the last four years the congress had taken place without the financial and moral support of the association. A sub-resolution by Senator Carter of Montana, stating that the National Irrigation congress never has and never will have any connection with the National Irrigation association was adopted by the committee.

PORTLAND, Ore., Aug. 23.—That the plan of holding the deliberations

(Continued on Page 2)

GENERAL WOOD ARRIVES AT OYSTER BAY

First Meeting With the President Since Return of General Wood From the Philippines---Welfare of the Islands and the Army Reviewed.

OYSTER BAY, Aug. 23.—General and Mrs. Leonard Wood arrived here from Washington at 5:46 this evening and are guests tonight of President and Mrs. Roosevelt. The president had not seen General Wood since his arrival in this country from the Philippines, where he is the commanding officer of the American forces in the Moro archipelago. His return was induced by the necessity of undergoing a surgical operation. An operation was performed in Boston and General Wood practically has recovered from its effects. He expects to return to the islands as soon as he shall have completely regained his normal condition.

Discussed the Philippines.

While it is said that General Wood's visit to the president is devoid of significance, and is of purely a personal nature, it is certain that the president desired to discuss with him the situation in the Philippines, not only as to the operations of the American army, but as to the development of the islands and as to needs in the way of legislation.

President and Mrs. Roosevelt entertained a party at luncheon today, including Major General George W. Davis, former governor of the Isthmian canal zone.

General Davis, who is a member of the board of consulting engineers of the Isthmian canal commission, discussed with the president matters concerning the canal with special reference to the approaching first meeting of the board of consulting engineers.

Commissioner Leupp came to Oyster Bay to make a report of an investigation he recently has made of the affairs of certain Indian tribes in the west and to discuss with the president some other questions that have arisen in his bureau.

Political Matters.

Mr. Barnes, who is chairman of the Republican state executive committee of New York called on the president about some political matters which he did not care to discuss for publication. Later the president had a talk with Rev. J. J. Curran of Wilkesbarre, Pa., president of the Catholic Total Abstinence union.

No details of the interview were given out.

Rev. J. J. O'Neil, rector of St. Catherine's Catholic church of Brooklyn, was presented to the president by Father Powers, rector of St. Dominis church in Oyster Bay.

RUSSIA DECLINES

TO ACCEPT THE AMENDED

JAPANESE TERMS

Modifications of Original Articles as Proposed by President Roosevelt Relating to Indemnity Are Designated by M. Witte as a Mere Sham---Russia Will Continue to Fight.

ONLY TWO MORE NEW PAGES WITH THE BELIEVED

PORTSMOUTH, N. H., Aug. 23.—The Japanese plenipotentiaries, at the conclusion of the afternoon session today of the peace conference, threw the cards upon the table. It was the dramatic moment—the moment to which all the previous proceedings of the conference had led.

The protocols involving agreement upon 8 of the 12 conditions originally presented by Japan had been signed. One side or the other must make a move, or the plenipotentiaries had reached the parting of the ways. The adversaries faced each other across the table. Of course it was well understood what would happen, but that in a way only made it more dramatic.

Figuratively, President Roosevelt suddenly entered the conference room. M. Witte sat silent and the move in the great diplomatic game passed to Japan. Baron Komura, in a few words, explained that Japan, in her great desire for peace, was ready to make certain "modifications" of the original articles in the hope that Russia could find it possible to accept them.

He then presented in writing to M. Witte the compromise proposition which President Roosevelt had suggested. It followed the lines outlined in these dispatches. It offered to withdraw Article 9, providing for the payment by Russia of Japan's bill for the cost of the war, on condition that Russia would accept Article 5, which provides for the cession of the island of Sakhalin so modified as to include an arrangement for the repurchase by Russia of the northern half of the island for 1,200,000,000 yen. In addition it offered to withdraw entirely Articles 11, an 12, (surrendor of the interned warships and limitation upon Russia's sea power in the far east.)

Witte Refuses Jap. Terms.

It was President Roosevelt's compromise and M. Witte knew its contents as well as Baron Komura. The question of whether he was "bluffing" was put to the test. Without a moment's hesitation M. Witte explained that the modification proposed was merely a sham, a change of phraseology, a diplomatic attempt to dorere la pilule, and ask Russia to pay war tribute under another name. He would not accept it. He told Baron Komura Russia wanted peace. She had given the proofs as affecting every article involving the issues upon which the war was fought, but she could fight and money or tribute she would not pay, not a kopeck. He asked Baron Komura to withdraw all demands for tribute. And so the envoys separated, to meet again on Saturday, ostensibly to permit M. Witte to place in writing, as the rules of the conference require, his reply. In reality the adjournment over the two days was to give each side an opportunity to consult its government for the last time. The outlook is black. Many believe it was never so black as tonight. Tonight the Japanese appear to be more taciturn and more resolute than ever. Unless the emperor of Russia yields by Saturday the end is likely to come on that day.

Will Not Pay Tribute.

The long instruction received last night, while not a reply to the communication of President Roosevelt given to M. Witte at the navy yard yesterday, was of a character to almost completely destroy hope that it will be possible for M. Witte to satisfy the Japanese demands. M. Witte himself has been quoted as saying that he would not, if ordered to do so by the emperor, sign a treaty involving the payment of a kopec. Black as the prospects are tonight, the failure of the negotiations are not certain. The Russian camp is pessimistic to a man, but they all know the quick and startling changes of front that sometimes take place at Peterhof. And there are factors in the situation which might effect one of those sudden changes in the emperor's attitude which have frequently astonished Russia.

Private advices from St. Petersburg say that sentiment there, in Moscow and in large centers favor acceptance of the compromise. This may mean much. But the real hope still rests with President Roosevelt. He is resourceful. He has made another move. He has sent Ambassador Meyer direct to the emperor and they were together according to private advices for three hours today. Mr. Roosevelt himself tonight may know more about how the emperor feels than M. Witte and be able to act upon the information conveyed to him by his ambassador.

Blame Emperor William.

The report is industriously circulated here that Emperor William is responsible for the attitude of Emperor Nicholas, and everything is traced back to the meeting of the emperors on board the Hohenzollern in the Finnish gulf. In support of this it is positively stated that after the interview M. Witte's instructions were made stronger and more unyielding.

A statement of the Russian position with regard to the phase of the negotiations created by the presentation of the Japanese compromise today has been made to the Associated Press.

When shown the Russian statement a competent Japanese authority declined to make any reply.

"We are not talking," he said. "We are not fighting this battle in the newspapers. When all is over we will give our side of the story to the world."

PENITENTIARY INVESTIGATION

DENVER, Aug. 23.—The committee sent to Canon City to investigate charges of ill-treatment of prisoners at the penitentiary made a report tonight to the effect that after spending two days in investigation, the members of the committee were unable to find any proof of the charges.

RUSSIAN CORRESPONDENTS A... WESTERN NEWSPAPERMEN

PORTSMOUTH, N. H., Aug 23.—The following authoritative statement has been made to the Associated Press explaining the Russian situation with regard to the last stages of the peace negotiations:

"Statements have appeared in prominent American and English papers, which while eloquent, studiously moderate and well intentioned, are unhappily calculated to mislead the world as to the prospects of peace and the general character of Japan's so-called new proposal with which it is contended Russia can close without loss of dignity.

Statements Misleading.

"The regrettable mistake into which the representatives of those journals have undoubtedly fallen is obviously the result of misleading data leavened with real but secondary facts. Thus, it is quite true, as those papers predicted, that the envoys of Japan came forward at today's sitting with a proposal which was new in form but old in substance. It is equally true that that proposal lacks the two contentions clauses stipulating that Russia shall surrender to Japan her disarmed warships and limit her naval strength on the Pacific and that it reduces the differences between the two powers to the compass of what is in appearance a single question, the sale of Sakhalin.

"Seemingly, therefore, Japan has also struck her pen through the most obnoxious clause of all—that which deals with indemnity—and all that she now asks Russia to do in addition to the terms already agreed upon is to purchase the northern half of Sakhalin for a sum of 1,200,000,000 yen, and this alleged simplification of the terms is supposed to provide Russia with an acceptable basis for a peace treaty. At first sight the offer may perhaps seem new to some, but a closer examination will show it to be, in all essentials, identical with the proposal already rejected by the Russian envoys.

Only Change in Words.

"A grievous mistake was committed by those who imagined that the envoys of the czar, the representatives of the Russian nation, would take the husk for the kernel, the shadow for the substance. A person of average intelligence can see what is new in this proposal is the phraseology in which it is couched.

"The elimination of the two clauses stipulating that Russia's disarmed warships be handed over to Japan and her naval strength on the Pacific be restricted, brings no new element into the basis of the concessions already made.

"Again, if a purely business transaction were indeed intended, the value of the territory offered would be the basis on which the two parties would treat. But here even this essential condition is not observed. The price demanded for the northern half of the island is the original estimate of the war costs. Possibly Japan may have fixed that sum with the intention of whittling it down to some extent later on, but, Russia, mindful of her national honor, will not and cannot consent to pay a war indemnity.

"Japan, having obtained all that she needed and longed for as a nation, now narrows down the issue to a question of dollars and cents, yet refuses for the sake of peace to waive her demand. Russia, on the contrary, has conceded freely everything, she could give consistently.

"Russia has suffered reverses owing to her own lack of organization, her unpreparedness and her internal disorders, but she is still a mighty and unconquered nation, whose people will enthusiastically uphold their representatives in the firm resolve to keep the national escutcheon immaculate."

Indemnity the Only Bar.

ST. PETERSBURG, Aug. 24, 2 A. M.—The Associated Press has the best of reasons and authority for declaring again with increased emphasis that Russia will never consent to the payment of an indemnity to Japan. Such payment would so gravely menace the vital interests of the state as to make this article in the Japanese peace terms utterly impossible of acceptance.

Furthermore, the Associated Press has the same reasons and authority for the declaration that if Japan withdraws her indemnity demand, peace will practically be assured, as the Russian attitude on the other three points, including the cession of Sakhalin, does not preclude the possibility of reaching a satisfactory settlement on these points.

Indemnity is the crux of the whole matter. If this question can be arranged it is believed here that all other questions on which there have been a divergence will practically settle themselves. In view of the known Russian attitude on the other eight points Russia believes that Japan's insistency on indemnity is the only thing that will make peace impossible.

Officials declare that attempts at

(Continued on Page 2)

ROOSEVELT IS VERY HOPEFUL

OYSTER BAY, Aug. 23.—President Roosevelt's final effort to induce a cessation of hostilities in the far east is almost dramatic in its extraordinary interest. Through Mr. Meyer, the American ambassador at St. Petersburg, he has made a direct appeal to Emperor Nicholas to permit the addition of such measures in the pending peace conference as will terminate

It can be said that the conference will not fail of successful issue because of lack of proper and disinterested effort on the part of President Roosevelt and while he does not discuss the negotiations in any manner for publication those who have talked to him reflect his increasing belief that out of all the bickering yet may come peace.

E. A. PECKHAM, NEW YORK BROKER, ARRESTED

Implicated in Scandal Connected With Cotton Crop Reports---Released on Bail.

SARATOGA, N. Y., Aug. 23.—E. A. Peckham, indicted for complicity in the department of agriculture cotton report scandal, was arrested here today and arraigned before United States Commissioner Davison, who ordered an adjournment of examination until tomorrow. In default of $12,000 bail Peckham was lodged in the Saratoga county jail at Ballston.

First To Be Indicted.

WASHINGTON, Aug. 23.—E. A. Peckham, the New York broker, who was arrested in Saratoga today, has been one of the most conspicuous figures in the investigation of the cotton report leakage. His indictment is the first which has been made public. It is understood his arrest was made on a bench warrant issued by Justice Clabaugh of the supreme court of the District of Columbia, for alleged conspiracy to defraud the government in connection with the cotton crop report of the department of agriculture. The fact of the issuance of the indictment had been carefully kept secret in this city. Mr. Peckham's name has been associated with Moses Haas of New York and both of them declined to testify before the grand jury here. Secretary Wilson reported that L. C. Van Riper of New York said that Haas acted as a go-between in conveying information from Holmes, the dismissed associate statistician, to other New York brokers.

Implicated by Holmes.

Correspondence between Holmes and brokers found by the secret service agents contained the initial "P." which is said to be the way in which Holmes referred to Peckham. According to the report of Secretary Wilson on the investigation he made, Holmes admitted that he and Peckham had close relations and were at one time associated in a business venture in which Holmes was to have an interest equal to the sum of $6,000, which he was to receive as a gift from the other members of the firm.

Secretary Wilson said he also admitted that when he had occasion to visit New York he frequently found that his hotel bills were paid by Peckham or Van Riper. Secretary Wilson's report charged Holmes with communicating advance information to Van Riper and Moses Haas of New York.

CHICAGO POLICE ARREST A NEGRO

WILLIAM BRACEY IS POSITIVELY IDENTIFIED AS MAN SEEN FOLLOWING MRS. MIZE, MURDERED WOMAN.

CHICAGO, Aug. 23.—The police today made a number of arrests in connection with the murder of Mrs. Effie Mize, who was shot on Washington avenue last night by a robber, but all of them were released in the afternoon with the exception of William Bracey, a colored man.

Bracey had been a waiter at the Holland hotel and was positively identified by Nora O'Hara and Nellie Curran, two maids employed in the Deprado hotel, as the man they saw following Mrs. Mize and Mrs. Wilson, her companion, a short time before the shooting.

Both girls had worked in hotels with Bracey and knew him well. They declared that there was no chance of a mistake in their identification of him as the man they saw following Mrs. Mize. Mrs. Wilson declared last night that the [illegible] was a white man, but when confronted today with Bracey, admitted that he might be the man. Bracey, although a colored man, is of a light yellow shade, and in the dusk might easily be taken for a white man of dark complexion.

The two maids declared that they could not identify him with the shooting, as they did not see that, but are emphatic in their declaration that Bracey was close to the women at the time Mrs. Mize was killed.

Bracey denies any connection with the murder. He admits walking on Washington avenue a short time before Mrs. Mize was shot, but says that he went away and was not in the neighborhood when the crime was committed. There have been no developments in the case to show that is was anything else than the act of a hold-up who feared that the cries of the woman would lead to his arrest and then shot her to facilitate his escape.

DENVER BANKERS ARE IN CUSTODY

PRESIDENT HILL OF DENVER SAVINGS ARRESTED IN INDIAN TERRITORY OTHERS IN DENVER.

SOUTH M'ALESTER, I. T., Aug. 23.—J. A. Hill, president of the defunct Denver Savings bank, was arrested here this afternoon by Chief of Police Collier on information from the Denver authorities who asked that Hill be held until their arrival. When arrested Hill stated that he would return to Denver without protest or requisition papers.

DENVER, Aug. 23.—Warrants were issued by District Attorney George Sladger today on complaint of depositors of the Denver Savings bank for the arrest of President J. A. Hill, Vice President F. P. Jones and some minor officials of the bank which was placed in the hands of a receiver last Saturday. The nature of the charges has not been made public. President Hill is said to be in Oklahoma and Vice President Jones in Colorado Springs at present.

Carlos W. Wood, cashier, R. A. Brown, receiving teller, and Jas. Davis, paying teller of the savings bank, were arrested here on warrants charging banker's larceny. The complaints specifically set forth that deposits were received by the bank officers when they knew the bank was insolvent.

POLITICAL MURDERS ABOUT THE BALTIC

ST. PETERSBURG, Aug. 23.—The situation in the Baltic provinces is not improving. Several political murders have been reported. Official advices show that the disturbances are fostered and directed by a thoroughly organized social revolutionary committee with headquarters at Riga, the emissaries of which defy the best efforts of the police. The intelligence department of this committee supplies ample warning of the movements of troops. Four of the leaders were arrested recently, one of whom was a woman.

DENVER'S VETERANS ARE EXPECTED TO NUMBER 25,000

General George Cook, Who Has Been Appointed Assistant Adjutant General, Says Former Estimates of Attendance Are Probably Too Low.

DENVER, Aug. 23.—Announcement of three important appointments in connection with the coming encampment of the G. A. R. was made at headquarters of the local executive committee tonight. Orders were received from Commander-in-Chief John R. King of Baltimore assigning General George W. Cook, chairman of the local executive committee, to the position of assistant adjutant general.

It has been customary in the past to appoint some distinguished military man, non-resident to the town in which the national encampment is to be held, to this position, the duties of which are to scrutinize the plans of the local committee in charge of the arrangements for the encampment and give the commander-in-chief's indorsement. The appointment is a practical indorsement in advance of General Cook as head of the local committee and is appreciated in local Grand Army circles as a high compliment to him.

In his new capacity as assistant adjutant general, General Cook today indorsed the appointment of Col. George A. Randolph of Denver as marshal of the parade and General Sherman M. Bell of Denver, former adjutant general of Colorado, as vice chairman of the information bureau. The latter will have complete supervision of the care of encampment visitors from the moment they arrive in the city until they reach their quarters. He will be assisted by 300 uniformed men, who will work in eight-hour shifts and have headquarters in a large tent located adjacent to the union depot.

Most complete emergency plans have been made by Department Commander Dr. George W. Curfman, chairman of the medical and public comfort committee. Two hundred experienced men have been engaged to act as ambulance attendants and all the physicians and surgeons in the city have volunteered to devote a certain amount of time on duty at dressing stations, which will be located at intervals throughout the downtown district.

General Cook gave it as his opinion today that previous estimates of the number of visitors to Denver during the encampment have been low. That at least 125,000 will attend. As an indication of the probable total number, General Cook said that Kansas alone will send 25,000. He said the railroads have already contracted to carry that number to Denver from the state of Kansas.

BRIGADIERS SEE LEAVING PROBLEM

(Continued from Page 1.)

of the National Irrigation congress in sections initiated at the instance of Secretary of Agriculture Wilson is a failure seems to be the consensus of opinion among the delegates to the congress which is in session in Portland, and in this view some of the government officials who have come here to address the sections coincide.

Notwithstanding that there are in Portland about 1,200 delegates to the congress not more than 50 or 75 all told have attended the sectional meetings either yesterday or today. The work of the congress is being done by the resolutions committee and the only interest that has been excited since the general session on the opening day is over the arguments which have taken place during its meetings.

The sessions of the committee have been attended by 50 delegates and the thousand others are spending their time in viewing the fair or visiting different points of interest about the city. [illegible] in the different sections before groups running from 5 to 25, but with such sparse attendance it is hard for the speakers to do themselves justice and discussion is at a minimum.

The committee on nominations named the following officers for the ensuing year:

Governor George C. Pardee, of California, (incumbent) president; L. W. Shurtliff, of Utah, first vice president; Congressman J. R. Stevens, of Texas, second vice president; E. L. Smith, of Oregon, third vice president; H. B. Mazon, of Nevada, secretary.

The committee did not consider the subject of the next meeting place, leaving that to be fought out on the floor of the convention. The rival candidates for the distinction are Denver and Boise.

Specials today at Vories.

The D. & R. G. Ry. will run another excursion to Royal Gorge Monday, Aug. 28. Round trip $3.00.

RUSSIAN GORGE RISES AT DISGUISED INDEMNITY

(Continued from Page 1.)

word juggling such as calling indemnity by some other name, or attempting to collect indemnity under the guise of other payments, will avail nothing. Russia, they say, will not conclude a peace treaty which includes the payment of indemnity or other financial contributions. Russia is ready, however, to make a reasonable and proper payment for the maintenance of the Russian prisoners in the hands of the Japanese.

BRITISH STEAMER IS IN DISTRESS

COLOMBO, Ceylon, Aug. 23.—As a result of stranding on Jafna reef August 7, the British steamer Crusader from Tagala, June 15, for a United States port (probably Delaware breakwater), and which arrived here, had her fore peak full of water. Her third hold and three of her ballast tanks are also leaking.

ELMINA II WON.

HALIFAX, Aug. 23.—The schooner-yacht Elmina, II, of the New York Yacht club, owned by F. F. Brewster, of New Haven, won the ocean yacht race of 357 miles from Marblehead to Halifax, crossing the finish line at [illegible]

Late Sports

SADDLE MACHINE A HEAVY HORSE

READVILLE, Mass., Aug. 23.—In the 2:10 trot, the Massachusetts purse $10,000; Sadie Mac won first, third and fourth heats in 2:06¼, 2:08¼, 2:08. Kid Shay won second heat in 2:08¼. Grace Kellar was third.

2:08 pace, purse $5,000; Allerson won fourth, fifth and sixth heats. Best time 2:08. Walter Direct won second in 2:06¼. Geary won first in 2:07½. Directum Miller won third in 2:05¾.

Foals of 1902, trotting, purse $3,000. Katherine L won two straight heats in 2:12½, 2:12. Miss Abbell, the Thaurop, Rosabelle, Governor Crane, Bonnard, Prideress, Silence, the Minute Man, Silver Wings and Tonfletta started.

WARD AND WRIGHT STILL CHAMPIONS

NEWPORT, R. I., Aug. 23.—Without exertion Holcomb Ward of New York and Beals B. Wright of Boston successfully defended the national championship in doubles today by defeating Alexander and Hackett in straight sets. The feature of the contest was the dashing play of Wright. He was all over the course and at times encroached upon his partner's territory.

ESCAPES DETECTIVES BY KILLING HIMSELF

DENVER, Aug. 23.—Richard Scott, for the last six weeks shipping clerk in the store of Frank A. Ellis 1649 Arapahoe Street, was found dead in the basement of the store at 7:25 this morning. A 32-caliber revolver with one discharged cartridge lay by the side of the body, and a badly gashed throat indicated suicide.

Scott had been hunted for by Detectives McNeill and Rinckers since last Monday, and the supposition is the man had been hiding in the basement ever since he fled. The officers entered the store shortly before noon of that day. A number of bad checks had been passed by the shipping clerk on Saturday and Sunday, and when the reports came to headquarters McNeill and Rinckers were detailed on the case. In company with one of the victims they passed the Ellis store and one of them remarked, "There is a fellow in here named Scott whom we have had before for passing bad paper. Let's go inside and take a look at him."

No sooner had the three entered the store than Scott saw them, and terrified at the sight of the man on whom he had passed the check and the detectives, he ran from the counter, leaving his hat and coat on a chair near the rear door entering into the alley and escaped into the cellar. Scott was arrested twice for passing bad checks. The last time was May 11, by Detectives Brown and Peterson. He was tried before Justice Rice and given 60 days in the county jail, but Alderman Patton came to his rescue and succeeded in getting him pardoned. He is a native of Missouri. In the letter directed to his wife he wrote of coming home and trying to square up. He had 17 cents in his pocket when found.

CART'S INJURY SERIOUS.

Special to the Gazette.

VICTOR, Aug. 23.—R. N. Cart, who was hurt in the Golden Cycle mine last evening by a piece of steel striking him in the skull, is in a serious condition. Today the physician attending picked 16 pieces of bone out of the skull.

CASE DISMISSED.

Special to the Gazette.

CRIPPLE CREEK, Aug. 23.—The case of V. B. Cosad, receiver of the Bi-Metallic bank, and the First National bank of Colorado Springs vs. A. A. Hollestone as trustee and the First National bank of Denver was dismissed today in the district court on stipulation of attorneys of both sides of the controversy, each party to pay its own costs.

TENNIS AT OMAHA.

OMAHA, Aug. 23.—Play in the middle west lawn tennis championship began early today, yesterday's muddy courts having somewhat delayed the tournament. A dozen matches in the second round of singles were still unplayed and the doubles had not been started when the play began on Seven courts today. In anticipation of interesting play, a large gallery crowded the verandas of the club house and terraces of the large lawn.

LEEVER CONFERS WITH EMPEROR

AMERICAN AMBASSADOR IS AT PETERHOF FOR THREE HOURS PRESUMABLY DISCUSSING MATTER OF PEACE.

ST. PETERSBURG, Aug. 23.—Mr. Meyer, the American ambassador, had an audience with the emperor at Peterhof this afternoon which lasted three hours. Presumably the matter of peace was discussed at length, but nothing can be ascertained at present regarding what actually took place, as the embassy declines to give out any statement.

It is known, however, that a long cablegram has been sent to Washington giving the result of the conference.

Mr. Meyer left St. Petersburg at 3 p. m., arriving at Peterhof an hour later, returning to St. Petersburg shortly before 8 o'clock. The emperor attended the maneuvers in the morning and returned to Peterhof just in time to receive Mr. Meyer.

THANKSGIVING FOR NATIONAL ASSEMBLY

ST. PETERSBURG, Aug. 23.—Thanksgiving services were held in the municipal hall today in commemoration of the promulgation of a national assembly. Several officials were present. The services concluded with a prayer for the preservation of the imperial family, which was chanted by the officiating priests.

The emperor's manifesto proclaiming the assembly was officially read at the regular session of the municipal council today. The council decided to send a loyal address to the emperor and also to commemorate the event by the inauguration of some charitable work for the benefit of the poor of the city.

ERIE FARMERS MUST HAVE WATER OR BLOOD

ERIE, Colo., Aug. 23.—The farmers and ranchmen southwest of Erie living along the south Boulder ditch, which supplies the town of Erie and the adjoining communities are up in arms because the city council instructed a man night before last to shut the water off from that part of the ditch when supplies the farmers with water and to carry the water into the Erie ditch. In other words the town of Erie is accused of having stolen water from the farmers, and last night men on horseback, thoroughly armed, went to the ditch and prevented the further stealing of the water. A man was caught in the act of damming up the ditch and informed a farmer's committee that he was instructed to do so by the city officials of Erie. Prosecution under Colorado laws will follow immediately, as the farmers of this county threaten to boycott any merchant in the town of Erie because their city officials have sanctioned the stealing of water from the farmers. There is great excitement among the farmers, and if another attempt is made it is said blood will be shed.

TROLLEY COLLISION AT CONEY ISLAND

NEW YORK, Aug. 23.—Twenty persons were injured, some of them very seriously, in a collision between two trains in one of the Brooklyn Rapid Transit terminals at Coney Island early today. The injured were hastily removed to the receiving hospital and after their wounds were dressed most of them were able to go home.

The wreck was caused by the train entering the terminal and striking a crowded one about to leave for the city. Windows were broken, the first car was partly smashed and the overhead wires broken. Falling wires coming in contact with the tracks sent up thick masses of sparks and there was a wild panic among the passengers, during which many of them were trampled under foot.

WANT FREE MEAT.

BERLIN, Aug. 23.—The agitation for the opening of the frontier to the free importation of meat and live animals has taken the form of telegraphic appeals by associations and municipalities to Chancellor VonBuelow, especially from Thuringia, where prices are alleged to be 5 per cent higher than formerly. There seems no doubt that the price of meats has risen 40 per cent during the last ten years and from 20 to 30 per cent within a year, but those who are investigating the situation are divided as to the causes—whether the increases are attributed partly to the generally increasing scale of living, or altogether to the customs duties and the sanitary barriers to the importation of meats and live animals.

ROBBED BY TRAMPS.

SUGAR CITY, Aug. 23.—Two unknown tramps assaulted and robbed Chas. Quinton, proprietor of a restaurant here, on one of the main streets of the town at 9 o'clock last night. The tramps had been drinking heavily and saw Quinton counting his money as they came out of a saloon. They assaulted him with clubs and took his money, then tried to escape. They were captured a short time after while trying to board a freight train to get out of town. The money they secured from Quinton was recovered. Quinton was badly bruised, but his injuries were not serious.

DEPUTY SHERIFF MISSING.

GREAT FALLS, Mont., Aug. 23.—A special to the Tribune from Lewistown reports the disappearance of Deputy Sheriff Silverthorne, who started a week ago into the wilds of eastern Fergus county after a horse thief named Connors. Connors rode into Lewistown yesterday wearing the belt and gun of the deputy, which he said he had taken from him while the latter was asleep at a round-up camp, about 145 miles from here. According to Conner's story Silverthorne had captured him and they were on their way to Lewistown when he took the gun, belt and horse which he rode to town. Conners is now in jail.

NATIONAL BAR ASSOCIATION

SEVERAL HUNDRED LEADING MEMBERS OF LEGAL PROFESSION AT NARRAGANSETT PIER MEETING.

NARRAGANSETT PIER, R. I., Aug. 23.—Between two hundred and three hundred leading members of the bar, representing nearly every state in the union and including many of the justices of the supreme court of the United States, were present at the first session of the 26th annual meeting of the American National Bar association, which began a three-days' conference here today.

The principal feature of the day was the address of the president, Henry St. George Tucker, of Lexington, Va., which was a comparative review of the noteworthy changes which have been made in the statutes by the nation and the state legislatures during the year. A general council was elected including among its members Lucius W. Hoyt of Denver.

MYSTERY IN DEATH OF AUSTRIAN AT ASPEN

ASPEN, Aug. 23.—The body of John C. Coucher, an Austrian of this city, about 40 years of age, was found on the tracks near the Aspen sampler this morning about 6 o'clock, by Frank Fox. Coucher had been at the saloon of Frank Narose until about 9 o'clock last night, and left considerably under the influence of liquor. He was evidently killed by the Colorado Midland engine which brought the train in last night, and was on its way from the depot to the round house. Acting Coroner Sanders will hold an inquest at 1 o'clock this afternoon, as some of his friends think he was murdered, his body placed on the track and the engine allowed to run over it to cover traces of crime. A neighbor by the name of Snyder says that as Coucher was going by his house he heard him saying he was going home to get his gun to kill somebody. Coucher's hat was found 30 feet from where the body was recovered, and from the marks on the track the body had only been dragged 30 feet. The acting coroner is of the opinion, however, that Coucher went to sleep on the track in a drunken condition, and was run over. Narose says Coucher had no trouble with anyone there, while in the saloon.

The saloon is only 1,500 feet from where the body was found.

BRITISH BARK FOUNDERS.

BUENOS AYRES, Aug. 23.—A report has been received here of the foundering of the British bark Bidston Hall. The report states that 18 of the crew were drowned. The remainder, who were saved, are expected to arrive at Buenos Ayres by one of the Argentine steamers.

EVERYBODY HELPED TO PAY WARDWICK'S FINE

ROSWELL, N. M., Aug. 23.—E. H. Hardwick, a prominent resident of this city administered a sound thrashing today at Artesia to J. R. Atkesin, an attorney of that place. The latter is charged with being the cause of many land contests. The regulation fine of $11 was assessed against Hardwick. A public subscription was taken up at Artesia to pay the fine, and the amount of the donation was limited to one dime, to give all a chance to contribute. In this manner 110 people made up the $11. One woman sold buttermilk to get her dime to subscribe.

SOLDIER HAS INVENTED NEW WIRELESS APPARATUS

SAN FRANCISCO, Aug. 23.—A new wireless instrument weighing but a pound and a half and found by exhaustive tests to give better results than the more cumbersome machines now in use, has been invented at the Benicia barracks by Hugh Annis, a young soldier of the signal corps. The machine has transmitted and received messages from Mare Island and the Yerba Buena station time after time. The apparatus is now being used at the barracks and has met with high commendation from the officials of the signal corps.

Annis is a graduate of a polytechnic school at Terra Haute, Ind., in electrical engineering.

FORESTERS ARE IN FAVOR OF COLORADO SANITAVIUM

BUFFALO, N. Y., Aug. 23.—At today's session of the American Order of Foresters' convention, Supreme Chief Ranger Kelly read his report, showing the increases in grand and state courts. Ohio and Oregon were the only states to show a marked loss in membership.

Establishment of a sanitarium in Colorado for members inflicted with pulmonary diseases was recommended by the chief ranger.

The report of Supreme Secretary McMurty showed an increase of 13,285 in membership during the last two years. The present membership of the order is 285,200.

BENNINGTON REPORT.

WASHINGTON, Aug. 23.—Secretary Bonaparte has referred the report in the Bennington case to Captain [illegible] judge advocate, and it is expected determination will shortly be regarding the recommendations court of inquiry. At the time disaster President Roosevelt in Secretary Bonaparte that he de report from the secretary upon t ject, and it is the intention Bonaparte to forward to the pr within three or four days the This report will cover the gener ditions and probably will commen the working of the naval pe law and its relation to the engineering department of the

FREE COFFEE FOR EVERYONE
AT ELKS' BARBECUE TODAY

Three Thousand Pounds of Roasted Meats to Be Served to Hungry Crowds at Green Mountain Falls. Sports and Dancing.

The Elks' big barbecue will be held today at Green Mountain Falls. Indications are that the crowd of Elks, townspeople and tourists will be a record-breaker, and provision has been made for entertaining between 4,000 and 5,000 people. It will be a great day and will afford a novel and truly western entertainment for the hundreds of visitors who are in the Pike's Peak region.

One of the Midland box cars was required to hold all the provisions for the feast. Mark Raftry, chief bottle-washer, and six chefs went up to the mountain resort yesterday afternoon. The fires for the roasting pit were started at 4 o'clock, the rails were placed across the mouth of the pit, and then whole carcasses of beef were placed over the bed of coals, covered up and left until today.

Three thousand pounds of meat—a ton and a half—are roasting and at 10:30 o'clock this morning three tons of juicy cuts of mutton, veal and beef will be ready to serve to the hungering multitudes.

As barbecued meat will go all the pickles, bread, lemonade and coffee one can want.

The pit is located in the grove just opposite the hotel and in the 500-foot enclosure tables have been placed to accommodate the crowds.

Then there will be a program of sports—tub races, three-legged races, potato races, and other events. Mark Raftry and John Hill are also down on the program for some stunts, and it is said that former Chief of Police Bill Reynolds will sell ice cream and confectionery. The Elks' band will furnish music, together with the Winfield, Kas., band.

Dancing will be a feature of the afternoon.

The Colorado Midland road has made extensive preparations for the handling of the crowds. The trains will leave the D. & R. G. depot the first at 9 o'clock. It will be made up of six coaches and one baggage car. The second train at 10 o'clock will consist of two sections made up of 10 coaches each, and the third special at 12:30 o'clock will be made up of three trains of eight cars each. Fourteen engines and their cars will be engaged to handle these trains. Returning, trains will leave Green Mountain Falls at 5, 6, 7 and 8 o'clock. Special street cars will meet each train at the Moreno street crossing. Tickets will be good returning on the regular trains, but not on regular westbound trains.

ROSE IVY AND BAND AT GLEN PARK TONIGHT

The Midland band and Miss Rose Ivy, the Scottish dynamo, will be the attractions at Glen park tonight. The Midland's well established excellence is drawing thousands of tourists to its every concert. With the additional feature of Miss Ivy's singing the card for tonight is more than attractive. Director Irvine announces the following program:

March, "On Jersey Shore" ..... Pryor
Overture, "Rienzi" ..... Wagner
Piccolo Solo, "Fantasia on American Airs" ..... E. F. Lax
Mr. E. F. James.
Selection from "It Happened in Nordland" (by request) ..... Herbert
Vocal Solo—
(a) "Tarantanga" ..... Marcheroni
(b) "Ole Man Moon" ..... Udall
Miss Rose Ivy.
The Famous Minuet (by request) ..... Paderewski
Grand Selections from the Opera "Carmen" ..... Bizet
"Silence and Fun" (a ragtime essence) ..... Laurendeau
Miss Rose Ivy and band.
"Star Spangled Banner."

SHOCKING CONDITIONS AT CHINESE LAUNDRY

Wing Chang, the proprietor of the chinese laundry at 119 North Cascade avenue, opposite the Alta Vista hotel, made a complaint to the police that he was being annoyed by a gang of boys who took especial delight in stopping up the chimney. Detective Threlkeld was sent to investigate and discovered such a shocking condition of affairs existing at the laundry that he at once reported the matter to Chief Adams. All of the six boys in the gang make shocking charges against the three Chinese, and the officers are convinced that there is some truth in the statements. They are satisfied that among other things the Chinamen have been running a hop joint in the laundry, and proceedings will probably be taken by the officials today.

MAJOR GENERAL CORBIN'S REPORT

RECOMMENDATIONS DIRECTLY BEARING ON EFFICIENCY OF ARMY IN THE PHILIPPINES. COAL SUPPLY.

MANILA, Aug. 23.—The report of Major General Corbin, commander in chief of the United States army in the Philippines, for the fiscal year 1905 in part says that greater efficiency, harmony and economy could be obtained if the division commanders were members of the commission, and in addition to their other duties performed those of the secretary of military affairs to the governor general, thereby placing all the military forces, army scouts and the constabulary under one directing head. The result would be more union of action than had occurred in the past.

Division commanders should be selected with a view to their special fitness for this duty on the commission and should always be present at call to the governor general.

General Corbin thinks that the inauguration of a president should be heralded throughout the possessions of the United States. He recommends that the army regulations be amended to provide for the firing of a national salute at noon on inauguration day at every army post. He recommends reconsideration of the ruling of the chief of staff of the army that no more colonels with civil war records be promoted to be permanent brigadier generals, and cites many cases of able colonels who are deserving of permanency, the service being entitled to their knowledge. He prophesies that the Philippines in the near future will not only furnish their own coal supply, but will compete with Australia and Japan in the markets of Singapore.

Governor General Wright expects to be present in Washington when the bids for the construction of railroads in the Philippines are opened.

UNIVERSITY EXTENSION LECTURES AT COLLEGE

Prof. Louis A. E. Ahlers of Colorado college is at work on the course of university extension lectures to be given at Colorado college this year. The course will assume an increased importance this year, and it is planned to give several of the lectures in Denver and Pueblo.

The first lecture will be given about the middle of October and the course will last through April. The lectures will comprise courses in science and literature.

Prof. George I. Finlay has been requested to repeat his course of five popular lectures on the "Geology of the Pike's Peak Region," which proved among the best of last year's series.

HEATED ARGUMENT CAUSES FLOW OF BLOOD AT ANTLERS

During the course of a heated argument in the kitchen of the Antlers hotel about 8:30 o'clock last evening two may-boys became involved in a cutting scrape that may prove serious. A Canadian Frenchman named Martin did the cutting and an American named Swan was the victim. The cut was inflicted in the left breast about an inch deep and two inches long. The police were notified and given a description of Martin, who made his escape after the cutting.

BERT SHELTON PLACED UNDER BOND OF $1,500

Special to the Gazette.

VICTOR, Aug. 23.—Bert Shelton, who last month shot Joe Turpin through the lung, was committed to jail today in default of $1,500 bond, under which he was placed when bound over to the district court. The charge is attempt to kill and mayhem, when the complaint was sworn to the fact developed that Turpin's right name was Van Weathersby.

A DELIGHTFUL WATER TRIP

between Detroit and Buffalo via the Detroit and Buffalo Steamboat company without extra expense (except for meals and birth on steamer), is the privilege of holders of tickets from the west reading via the Grand Trunk Railway system (double track from Chicago to Montreal and Niagara Falls) to or through Suspension Bridge, N. Y. Further particulars, including illustrated descriptive literature, will be mailed on application to Geo. W. Vaux, A. G. P. & T. A., Grand Trunk Railway System, 134 Adams St., Chicago.

Elks' Barbecue Aug. 24, Green Mt. Falls. Only $1.00, including trip and barbecue. Secure tickets at Midland office, 9 N. Tejon street.

THE POWER OF IMAGINATION.

Imagination in some people is exceedingly strong. One day recently a local physician was talking to a friend about the power of it.

"Well," said the doctor, "you have about the strongest imagination I ever knew of."

"My imagination isn't very strong," replied the other.

"Yes, it is. Some day I'll prove it to you," said the physician. A week later the two men were walking down town together, when the doctor handed his friend a cigar.

"It's mighty strong, Will," he said; "so strong, in fact, that the same brand frequently makes me sick. But it's all I have."

The other smiled. "It won't make me sick," he said. He lighted the cigar. Just as they were about to part, the doctor said:

"Will, you're looking pale around the gills. What's wrong?"

"Frankly," said the other, "that cigar has made me slightly ill. I never smoked as strong a weed."

It was the doctor's turn to smile. "That's one of the mildest cigars made," he said. "I was just trying to show you how strong your imagination is."

The doctor's friend got over his illness at once. "Well," he said, "you've done it."—Philadelphia Telegraph.

CRITICISES THE AMERICAN CHURCH

PROMINENT CLERGYMAN DECLARES THE CHURCH IS BECOMING A STRICTLY SOCIAL ORGANIZATION.

NEW YORK, Aug. 23. A criticism of the American Protestant churches was voiced today by Rev. W. G. Campbell Morgan, who has been working in the late Dwight L. Moody's place at East Northfield, Mass. Dr. Morgan said:

"The American church does not seem to be much more than a social organization now. Its members should more time developing along social lines than they do along sentimental lines. The business men, the influential Christians and others do not do their duty. The old fire and old time spirit are lacking and without this what can be expected by social clubs but a leading away from God and the path.

"What the churches want is more of God and less of dress and social position; more of the spirit of the Master and less of strife for place and money and more religion by example and life than by preaching and talking."

$2.50 Cripple Creek and Return $2.50 Midland Route. Best Line.

8:00 a. m., 10:35 a. m. from D. & R. G. Rock Island depot. Aug. 22, 23, 25, 26, 27.

AMUSEMENTS

"A NEW YORK GIRL" AT THE OPERA HOUSE

"A New York Girl," which will be presented by the Curtis Musical Comedy company at the Opera house this afternoon and tonight is the brightest of the famous Weber & Field's productions. The musical selections are of the catchy order and the comedy very funny. Chas. J. Burkhardt plays the character of Shmendrick Goldstein, originally played by David Warfield, and Miss Ida Howell will assume the original role of Maud Dashington, the New York Girl. Max Burkhardt and Harrison Greene will have the Weber & Field parts, and Frank E. Mitchell will be seen in the character as done by DeWolf Hopper. The dainty chorus of 14 pretty girls, better known in the east as the "Broilers," will be seen in new costumes and new dances. Among the musical selections will be heard the following New York successes: "Christopher Columbus," "I'm Looking for a Sweetheart," "Julie Dooley," "Take Me Back to Good Old New York Town," "Coffee," "Louise Schmidt," "My Sombrero Lady," "What the Brass Band Played." One can readily see what a treat there is in store for the lover of musical comedy.

The Curtis Musical Comedy company has become very popular in Colorado Springs. Two full houses, both yesterday afternoon and last night, enjoyed their bill of "Whirley Girley." The matinee prices are 15 and 25 cents, and the performance begins at 2:30 p. m. The night prices are 25, 35 and 50 cents.

COLORADO SPRINGS MUSICAL CLUB RECITAL

The music lovers of Colorado Springs have a treat in store for them in the recital to be given at Perkins hall, Saturday morning, by Mr. William Willert, baritone and Miss Georgina Nelson, pianist. The following extracts are taken from leading papers of the country.

He has a large and flexible organ, a splendid personality and is a model singer.—Chicago Svornost (translation.)

A charming, rich baritone voice, and a perfect enunciation.—Elgin Daily Courier.

He pleased the audience greatly.—The University Herald.

He possesses a rich voice of unusual flexibility and range. The ease and naturalness of his style and his perfect enunciation are charming.—Joliet Herald.

He has a musical voice with exceptional range for a baritone. He showed much art in his renditions, and his interpretations were marked by fine tone shadings.—Galesburg Republican.

Miss Georgina Nelson, of Boston, is well known in Colorado Springs as a most talented pianist, having before her a most brilliant future. This will be the last opportunity to hear her before her departure for Vienna this fall where she goes to continue her studies.

IMMENSE AUDIENCE ENJOYS THE EMPIRE

Last night was the largest attendance the Empire has had this season so far, but the big features that are coming to this popular house will undoubtedly increase it still more.

Montgomery and Cantor, the feature act of this week's bill, are making the biggest hit of any act of the kind this season. Their comedy keeps the audience in a roar of laughter, and they are conceded to be one of the topmost dancing acts that ever played the western affiliated circuit.

Ed. B. and Rolla White are more than making good, with their elite boxing act. Little Tobie Stark is as clever a little artist as could be imagined, and the rest of the show is above the average. The illustrated song, "Bunker Hill," is also a big hit.

California mustard has strength but lacks flavor. Trieste has flavor but lacks strength. Schilling's Best is the two mixed, nothing else, no color. The next-best mustard sold here is weak but has good flavor.

Personal Mention

Mrs. Winfield S. Boynton has received a cablegram stating that Mr. Boynton, who has gone to Europe, had arrived in Rotterdam.

Mrs. E. H. McCreery and family and her mother, Mrs. John McClung, who have been in Ivywild this summer, will soon return to their home in Parsons, Kan.

Mr. and Mrs. Charles B. Hall, of Pueblo, arrive today and will make their home on East San Miguel street. Mr. Hall becomes general secretary of the Colorado Springs Y. M. C. A. on September 1.

Mrs. A. M. Gillis and Miss Clara J. Coffin, of East Orange, N. J., are guests of Mr. and Mrs. Phillip Tracy, 1119 North Weber street. They are en route home after an extended trip to Alaska and California.

The guests of Judge and Mrs. A. T. Gunnell, Mrs. Theodore Shelton of St. Louis, Mrs. Mark L. Robbins of Houston, Tex., Mrs. Harry B. Duke of Kansas City, and Miss Anne Gentry Skinner, of St. Louis, leave today on a trip to Portland, Ore., and Honolulu.

Hiram S. Cable, general superintendent of the Rock Island system, for many years president and general manager of the Cog road, J. E. Kilpatrick, superintendent of motive power of the road, accompanied by Division Superintendent A. T. Abbott, and other officials, arrived in Colorado Springs on the belated Rock Island from Chicago early this morning.

ARRESTED—Edwin R. Elston was arrested by Police Officer Davis last evening upon a warrant issued by Justice Dunnington yesterday charging him with stealing stocks and dies belonging to Joseph Hirschenfelt. The prisoner was turned over to Constable Gillingham and placed in the county jail. He will have a hearing in the justice court today.

Biggest Day this year, Aug. 24, Green Mt. Falls. Everybody go. Elks' Barbecue. Only $1.00 for round trip and barbecue. Special train from Rio Grande depot 9 a. m., 10 a. m., 12:30 noon. Secure tickets Midland Route office, 9 N. Tejon street.

Tourists Do Not Miss the Elks' Barbecue at Green Mt. Falls, Aug. 24. Biggest event in Colorado. You'll be sorry if you miss it. $1.00 round trip, including barbecue. Secure tickets Midland Route office, 9 N. Tejon St.

THE RAILROAD DEATH HARVEST.

THE annual report of the Interstate Commerce Commission, issued a few days ago, reveals conditions which may be taken as cause for both exultation and regret. The big figures which represent the growth of American railroads, their mileage, earnings, number of employes and salary disbursements, are a delight to the patriotic reader who takes almost a personal pride in the fact that we have the greatest railroad systems in the world. It is gratifying to know that this country has almost as many miles of railroad as all other nations combined; that the earnings for the year ended June 30, 1904, reached the enormous figure of two billion dollars on some thirteen billions of invested capital, and that in the same period these roads disbursed more than eight hundred millions in salaries and wages. But we experience quite another sensation when we learn that in this same year almost as many people were killed or injured by our railroads as were sacrificed in the sanguinary Battle of Mukden.

Here are the figures as given in the Commission's report: In the fiscal year 1904 there were 94,201 casualties, of which 10,046 represents the number of persons killed, and 84,155 the number injured. Of those killed 441 were passengers, and of the injured 9,111 were passengers—or one killed out of every 1,622,267 carried, and one injured out of every 78,523 carried. It appears that one trainman of every 120 employed was killed, and one of every nine was injured.

These figures are positively horrifying. It is some comfort to the traveling public to know that a very small proportion of the killed and injured are passengers, but what of the railroad employes?—they are the men who are sacrificed like sheep in a slaughter-pen. In 1904 no fewer than 3,632 employes were killed and 67,067 were injured.

Compared with railroading—that is, railroading in the United States—war is a safe occupation. The soldier has a better chance of dying of old age than the trainman. Under ideal conditions railroading will always be an extremely hazardous occupation, but there is not the slightest doubt that it could be made much safer than it now is if the companies cared to spend more money in better track and equipment, and in safety appliances.

OUR SUMMER VISITORS.

ONE before the present tourist season began the prediction was made that it would be the greatest on record in point of the number of visitors. The season is still a good three or four weeks from its end, and this prediction has been fully verified. Thousands of summer visitors are pouring into the city each day. The railroads are taxed almost to the limit of their capacity; trains are being run in two or more sections, and additional cars are added to those which are run only in one section each.

Evidence of this exceptional tourist business is apparent not only on the railroads but at the postoffices here and in Manitou, in the hotels and boarding houses, the stores and on the streets. Merchants are enjoying a highly profitable season, and the patrons as a rule are of the class who have money to spend.

Last year the number of tourists was comparatively small because the vast majority of the people in the region from which Colorado Springs draws its summer patronage went to the World's Fair at St. Louis. This year the tide of travel sets the other way. The Lewis and Clark Exposition at Portland is attracting thousands of visitors from the East, anxious not so much to see the fair as to view the great West and Northwest. Most of them probably pass north of Colorado Springs, but a very considerable number come this way and stop for a day or two in the City of Sunshine.

Colorado Springs is destined to become more and more the favorite pleasure and health resort of the people of the Mississippi Valley, and as its advantages become better known it will attract increasing numbers from the states farther East. Surely there is no other place so easily accessible which offers such varied attractions, and no other that can show a greater proportion of one-time visitors who have become permanent residents.

THE WAR LOSSES.

THE Tokio correspondent of the London Times has been at considerable pains to compile a complete table of the casualties and captures in the war to date, and the result of his labors is one of the strongest arguments yet set forth for Russian consent to the peace terms, however onerous they may seem. Official figures could not be obtained in full, but the correspondent has supplemented his own private intelligence with data gained from other sources which may be considered reliable.

It appears that the Japanese losses in killed and wounded from February, 1904, to July, 1905, inclusive, were 167,402, while the Russian losses in the same period were 288,480. These figures include 67,701 Russians who were captured by the Japanese, as against only 646 Japanese prisoners taken by the Russians. In every engagement except Nanshan and the siege of Port Arthur the Russian losses far out-numbered those of the Japanese. The Russian naval casualties are placed at 6,000, as against 3,670 for the Japanese.

An even more startling disproportion is apparent in the losses of munitions of war. At Liaoyang and Mukden Marshal Oyama captured enormous quantities of arms, ammunition, clothing, food and supplies of other kinds, but it is doubtful whether in a single engagement either Kuropatkin or Linevitch succeeded in taking anything of value from his enemy.

Russia had eighty-three warships of various kinds engaged in the war, and of these she has lost seventy-three. The list of losses includes fifteen battleships, twelve of which were sunk, two captured, and one is interned in a neutral port, eventually no doubt to become the property of Japan. Of the five armored cruisers engaged, two remain. The tonnage of the vessels lost was 346,588—decidedly a large proportion when we consider that the tonnage of all the Russian vessels engaged in the war was only 410,224.

Now for the Japanese naval status, and the comparison is complete. The Mikado has had engaged seventy-six vessels, aggregating 374,184 in tonnage. Of these he has lost twelve vessels with a total displacement of 46,025. Two of the original six battleships have been sunk, both by Russian mines. There has been no loss of armored cruisers. But after deducting the twelve vessels of various classes which Japan has lost, it is a fact that they now actually have more warships than when the war began, the tonnage being increased by 25,000. This is due to the capture of Russian warships, not only in the Battle of the Sea of Japan, but in the engagements at Port Arthur, Chemulpo and elsewhere.

The cruiser Varlag, sunk at Chemulpo, has been raised, and the Peresviet and Bayan at Port Arthur have also been successfully brought up from the mud in the bottom of the harbor. There are several other sunken Russian warships which can probably be raised, repaired or rebuilt and added to the Japanese navy. The Japanese have also captured and condemned forty-five ships engaged in carrying contraband goods, but the Russian showing in this regard is so small as to be hardly worth considering.

A review of these events ought to convince even the most valiant son of Mars in Russia that the time has come when bombastic talk of dignity and honor should give way to sane consideration for the welfare of the people. Russian credit is exhausted and the Russian governmental system is tottering. The people can not be expected to continue indefinitely to patiently pay the piper. Now is the Czar's golden opportunity, and if he allows this chance of peace to slip through his fingers he will surely repent his folly before the end of the year.

The Census Bureau has found that the death rate of this country has been decreasing steadily since 1820. Gracious! Perhaps the despised Russian and Italian immigrants, with their large families, are a blessing instead of a curse. Without them we never could have become a nation of eighty-five million people.

Mrs. Humphrey Ward is said to be coming to this country to "get in touch with the American atmosphere." If she is looking for the real thing she should see that her ticket reads straight through to Colorado Springs. It would also be well for her to close the car windows when she passes through Pueblo.

M. Witte seems to think that the fact that Russia has never paid an indemnity is sufficient reason why she should not do so now. France thought the same way about it in 1871, but she speedily found that it is never too late to learn new tricks.

It is reported that John D. Rockefeller may sue Ida M. Tarbell for criminal libel. It's dollars to doughnuts that he won't. Mr. Rockefeller has a deep-seated aversion to talking from the witness stand.

The Russian envoys are of the opinion that "reimbursement" is just as disagreeable a word as "indemnity," so long as it costs the same amount of money.

A Chicago beef trust magnate was robbed by a hold-up man the other day. Now he knows how it feels to be beaten at his own game.

Colorado Comment.

TO SOLVE THE LABOR PROBLEM.

The pulpit should be able to say a word in season to all classes. The lesson of the gospel is not confined to rich or poor. The problem of labor to be solved aright needs the best Christian thought of the country. It resolves itself, after all that has been said about organization, into a matter of the individual. If employer and employe get together on the basis of using each other right, if each conducts himself according to the standard of the square deal, most of the labor troubles will be a thing of the past.—Leadville Herald-Democrat.

PROGRESS OF GREAT TUNNEL.

The Montrose tunnel from the two ends has now reached a depth of practically half a mile, which leaves five and a half miles yet to drive. In order to complete this by April 30, 1908, the time limit for completing the work, it will be necessary to make 20 feet per day. At present 13 feet per day is being made on the valley end and eight feet on the river end. If the big undertaking is finished by 1910 it will be doing well.—Telluride Journal.

GOOD POLITICS.

When any official explains his failure to enforce a law on the ground that it would not be "good politics" he should be tried for high treason. There is only one kind of "good politics," and that is the honest, fearless variety. There is nothing more detrimental to the success of our form of government than a timid, cowardly public official.—Greeley Sun.

WORKING TOWARD ONE END.

Lawson's "Frenzied Finance" articles, the Equitable exposure and Roosevelt's fight on railroad rebates and the beef and other trusts, all combine to give hope that the reign of the big grafters in American finance is nearing its end.—Fort Collins Courier.

APPEARS UNNECESSARY.

Dr. Cecilia Wilkinson Hunt advises all married women to study hypnotism and control their husbands thereby. But is hypnotism necessary for a state of things that is sufficiently established?—Trinidad Chronicle-News.

A CHEERING STATEMENT.

"Men who stay at home every night are not good for anything," says Dr. Julia Holmes. We don't know who Mrs. Holmes is, but hurrah for her anyway.—Golden Globe.

Year to Nature

EDITOR SQUARES HIMSELF WITH MAJOR SCREWS.

The Register did not have either its long talk or its short talk man at the scene of Thursday's demonstration in honor of Major William Wallace Screws at Coden, but was present in spirit and in harmony with all that was said on that pleasant occasion. If the Register comes a little late to join in that symposium of praise it is because things have been happening in this neighborhood and the editor has not found opportunity to put himself in frame of mind fit for performance of so delicate a task as that of speaking of the most foremost man among the newspaper men of Alabama.—Mobile (Ala.) Register.

RHYMING THE NEWS IN GEORGIA.

Before the lemonade was served
We heard unusual groans;
Tom Jinks was bitten by a snake,
And also Billy Jones.

This comes of roaming in the woods
In wild and careless frolickin'.
(Don't know what kind of a snake it was,
But think it was a moccasin.)
—Rural Correspondence Atlanta Constitution.

For many years a certain doctor practiced medicine in a little country town in Wyandotte county. He was careless of his dress. Half the time, perhaps, his socks were not mates. Finally the doctor moved his family to Kansas City, Kan., and began to spruce up. He insisted on wearing socks that were mates. This made his wife suspicious. She thought he was getting sporty. The doctor has moved back to the country.—Kansas City Journal.

PETRIFIED TREES IN ARIZONA.

Wonderful Freaks of Nature With Which Nothing in Europe, Asia or Africa Can Compare—Petrified Forest Covers Thousands of Acres. Scientific Theories As to Formation—Remarkable Natural Bridge.

WRITING from Adamana, Ariz., to the Chicago Record-Herald, Wm. E. Curtis says:

"Arizona is the great national museum, the home of freaks and phenomena, and, to carry the alliteration a trifle further, we might call it the land of wealth and wonders. There is no danger of exaggeration when people talk of the strange things they find down here, and you need not be surprised at anything you see or hear of.

"The petrified forest is one of the greatest wonders of the world. There is nothing to touch it in Europe, Asia or Africa, so far as I have ever seen, and if it lay in the interior of India, or on the mountain tops of Switzerland crowds of Americans would be rushing there every summer, whereas comparatively few people are taking the easy journey that brings them here. You get off the Santa Fe train either at Holbrook or at Adamana station—named for Adam Hanna, an old frontiersman. The latter is nearer to the forests, but the accommodations are not so numerous. Mr. Stevenson, who keeps the Forest hotel, can take care of from twelve to fifteen people, however, and he has the most comfortable wagons I have found in this country. There are three petrified forests, all in Apache county, and distant six, nine and twelve miles, respectively, to the southward of Adamana. It will cost you $5 if you make the excursion alone, but if there is more than one in the party the charge is $2.50 each. Large parties should give plenty of notice, in order that they may be properly taken care of. They can send word to the station agent and he will look out for them. It is an easy drive, the roads are good, there is little dust, the wagons are covered so as to shut out the sun, and the trip is no more tiresome than a drive through an ordinary park. It is not half as hard as the same distance over the pavements of Chicago, and you can come here any time of the year with equal comfort.

"There is a mistaken notion about the summer weather in this locality. The altitude is 7,000 feet above the sea, and while the sun is hot in the middle of the day in July, August and September, there is always a fresh, cool breeze going, and you do not suffer from the heat any more than you do in Michigan or Minnesota.

Covers Thousands of Acres.

"The petrified forest covers several thousand acres of timber, petrified by some mysterious process until the trunks and roots of the trees are of solid stone, sparkling masses of brilliant colors of onyx, agate and crystals scattered over a vast area. Petrifactions can be found in many places in the Rocky mountains. They appear in considerable quantities in the Bad Lands of South Dakota, in Utah and Nevada, but here their extent and magnitude are beyond all comparison in every respect. Thousands of acres are strewn thickly with entire trees, logs and stumps, and millions upon millions of tons of pieces, some of them so large that there is no machinery in all this country strong enough to lift them.

"According to the theories of scientific men, this part of the earth was once covered with [illegible] Some say the trees were Douglas fir, others that there was more than one kind of tree, which accounts for the great variety in the appearance in the petrifactions. But however that may be, the forest was submerged in a sea of chemicals and lay in soak for ages until the fibers of the trunks and roots were turned to stone, carrying the most gorgeous colors, as beautiful as the jewels of Golconda. Nobody knows how it happened, but two, and in places three forests, standing on top of each other, were subjected to this chemical bath, for the petrified trees lie in strata, with 20, 30 and 40 feet of sand between them. The surface of the ground in three large tracts is thickly covered with logs, limbs, stumps and chips, all petrified; some of them half-buried in the soil. Then, if a shaft were sunk under these, it would reach a lower layer, or strata, of similar petrifactions—almost an exact duplicate. In several places where shafts have been sunk deeper a third layer, or strata, has been discovered, 60 or 70 feet below the surface of the ground, which suggests that after the one at the bottom was carefully covered by the hand of nature a new forest grew upon its grave. In the course of time that was also submerged in a chemical bath and likewise changed from wood into stone, and was then hidden under another layer of sand, upon which a third forest grew and became stone also.

A Wonderful Natural Bridge.

"This is a tremendous proposition, and while there is no good in speculating upon the causes, the consequences are here. I saw one tree almost perfect—160 feet in length and two monsters, lying side by side, were 120 and 125 feet long, almost perfect, with the bark petrified upon them. Overhanging a cliff is a log shaped like a cannon 30 feet long and 3 feet in diameter, of most beautiful crimson crystal, and near by are sections that have evidently been broken from the same trunk.

"The most remarkable thing in the forest, the object of greatest interest, is the natural bridge. It is to be found about seven miles from Adamana—a trunk of petrified or crystallized wood 111 feet long, 5 feet in diameter at the base and 18 inches in diameter at the other end, stretched across a canon, where it fell ages ago. It is in almost perfect condition, and if you have nerve you can walk across it, looking down into a tree-fringed pool beneath you. The engineers of the S. F. railroad company have built two slender piers of stone under it to support the tree, and have thereby done the public a very great favor in protecting and preserving one of the most extraordinary freaks of nature in the universe.

"It is a wonder that this bridge has been allowed to remain so long. Vandals have been at work here for half a century. They have been collecting the petrified wood and shipping it east by the carload. A company was organized to cut it up and polish it and grind the small pieces to powder for manufacturing purposes. You can see the remains of their shop over near the railway station. A great deal has been sold to museums. A company was organized in Michigan to saw off sections of the petrified logs for table tops, and its workmen succeeded in getting one perfect slab more than 5 feet in diameter. But recently this has all been forbidden. The government regulations permit visitors to take away seven pounds of petrifactions each, but there is no one here to enforce the rule. There should be a custodian. Somebody was appointed a year or two ago, and he rode around looking after things for several months until he discovered that no salary was attached to the office. Then naturally he resigned and sought more profitable employment.

"For the benefit of visitors who may come hereafter, I will say that the first forest is most easily reached and contains the natural bridge, which is the greatest wonder of all. The third forest is much larger than the others, and the trees are not broken up so much. It contains a larger number of perfect logs of large size, and many contend that they have more brilliant colors.

Relics of Prehistoric Race.

"Between Adamana and the first forest, a couple of miles off the direct road, are the ruins of an ancient pueblo and a prehistoric fortress which must have contained 200 or more rooms. Upon the walls of a cliff near by are some remarkable inscriptions—pictographs which are of greater interest to scientific men than to the general public, being unique in some respects. Near them are extensive burial grounds of a prehistoric race, where a great quantity of ancient pottery and silver ornaments has been discovered.

"Scattered all over this part of the country are burial places in which pottery, silver ornaments, implements and other articles which the Pueblos are in the habit of burying with their dead may be found, and the people at the stations along the Santa Fe road, when they have nothing else to do, go out on resurrection expeditions and bring back wagonloads of prehistoric articles which bring high prices in the curio stores. Fred Harvey has a string of shops at which buyers may find large collections and many articles of great value. He has nearly $200,000 invested in Indian blankets and curiosities. Nearly all of the station agents on the railroads in New Mexico and Arizona and the merchants of the several towns deal in such stock, and speculators are going back and forth all the time, buying up the rarest and choicest articles. Expeditions come out from different museums and universities every summer, hunting for antiquities, and several firms of speculators have men in the field digging up ancient cemeteries, searching ruins and sites of former habitations, usually with success and profit. There is a bill before congress to stop all that and to prevent the wholesale vandalism. It has passed both houses at times, and there is really no opposition to it. All of the scientific societies have united in its support. Last winter the American Institute of Archaeology called to Washington representatives of the scientific societies of America, who made arguments before committees in congress and urged the necessity of such a law. But there was too much other business of general importance and the bill failed to pass. It is almost certain of becoming a law at the next session, when not only the cliff dwellers, but the petrified forest, the prehistoric cemeteries and all other antiquities will be declared public property and be protected as such.

Lived Same For Centuries.

"Charles F. Lummis, who is an authority on Pueblo ethnology, rejects many of the popular ideas concerning these interesting people, and declares that the number of villages and their population have not changed materially during the 350 years that they have been known to the whites. He also declares that the Pueblos lived just as they do now at the time Coronado first invaded this country, the only changes being in the increase of the live stock and agricultural implements. Sheep were first introduced among the Pueblos in 1581 by Padre Luiz, a Franciscan friar; cattle were driven up from old Mexico early in the seventeenth century; goats, cats and dogs came later. Horses were left in some of the villages by the earliest invaders, and burros came later. Mr. Lummis says that the only domestic animal of the Pueblo at the time of Coronado's expedition was the turkey, and it was kept quite as much for its feathers as for food. The principal crops were corn, cotton, squashes and beans, and the most of the garments worn were of buckskin and cotton. The extermination of the deer and antelope has compelled a substitution of sheepskin and goatskin, and wool has taken the place of cotton, because it can be produced so much more easily. These are practically all the differences in the economics of the race that have taken place in 300 years.

"Mr. Lummis contends that the total Pueblo population was never more than 30,000, and thinks even that is an excessive figure. He argues that the ruins and the cemeteries that are scattered all over the southwest, including the cliff dwellings, are significant, not as evidence of an enormous population now extinct, but as demonstrating the migratory habits of the race. And it is beyond contradiction that, unless there has been a radical change in climate, this country could not have supported many more people than are now living upon it. It is the theory of Mr. Lummis that during the countless centuries since these high arid portions of the northern continent have been inhabited, the villages have moved from place to place for reasons of necessity, because of the attacks of savages; because of the failures of water supply; because of epidemics, or because of signs and omens, to which the Pueblo is extremely sensitive. He asserts that the ruined pueblos, which are found scattered all the way from the Great Salt Lake to the Rio Grande, were not occupied at any one time, but were in turn the houses of successive generations, often for centuries, and were abandoned for more favorable locations, while the total population remained about the same—the birth rate and death rate keeping the average.

"Mr. Lummis contends that these Pueblos have no relation to the Aztecs of old Mexico, and belong to an entirely different stock. He pronounces the beautiful legend of Montezuma a myth, which was created for campaign purposes in 1846, but does not make this contention quite clear. He says that few of the Pueblo Indians ever heard of Montezuma, but that enough is known about him to prove that he was not born in Pecos or any other town in New Mexico, that he never saw any of these pueblos, and that the caciques of the different villages do not expect or desire his return. All that beautiful story, Mr. Lummis insists, is a fiction, and, while a sacred fire may be kept burning in the estufa, or underground temple, it has a significance altogether different from that usually ascribed to it."

NEWS OF THE STATE IN CONDENSATION

DENVER, Aug. 23.—Huybig escaped from the State Industrial school for Girls last Sunday afternoon, Edna McDermott and Nellie Judd were captured by Officers Mulligan and Kaylor yesterday afternoon at Nineteenth and New Haven streets. They were later taken back to the school by Guard Mensimer, brother of Superintendent Mensimer, who chained them together before leaving the police station. Handcuffed and hatless, they were led up the street to the car two blocks distant. Both of the girls are within a few months of 21 years old, when they will be discharged from the school. By reason of their age and incorrigibility they have long been the leaders of the insurrections among their companions.

GLENWOOD, Colo., Aug. 3.—Miss Elene Chappee and William D. White were married last night at the Hotel Colorado. Miss Chappee was visiting friends near Minturn, Colo. There had been an attachment between the two for some time, but objection had been made by the girl's parents to an immediate marriage, and she had been sent to Colorado. White was kept in ignorance of her destination.

While passing through Minturn yesterday he saw the girl standing on the platform at the Minturn depot. He got off and spoke to her and she boarded the train and came to Glenwood with him to the Hotel Colorado. Rev. J. W. Jerrens, pastor of the local Presbyterian church, was sought out, and the two were married at the hotel.

LITTLETON, Colo., Aug. 23.—Mr. J. L. [illegible] of this county, has left for Portland, where he will manage the scenic reproduction of the Custer massacre at the exposition. Taylor served in Sheridan's cavalry and was quartermaster's clerk in the Seventh cavalry.

TRINIDAD, Colo., Aug. 23.—C. F. Bedford has been sentenced to six days in jail for cruelty to his seven-year-old son. It is said he drove the child from home last week. The boy could not be located for several days, and when he was finally discovered it was found that he had been tramping about, finding scraps of food wherever he could and sleeping in the open air. The child told of severe cruelties practiced upon him by his father. The Humane society caused the father's arrest and conviction.

DENVER, Aug. 23.—The board of directors of the Denver Livestock exchange have appointed J. B. Calkins secretary and T. J. Moberly treasurer of the exchange. Henry Gebhard, A. J. Champion and John Lutz were appointed on the finance committee. The exchange is now in full working order, and is rapidly getting down to business.

A MATTER OF HEALTH

ROYAL BAKING POWDER

Absolutely Pure

HAS NO SUBSTITUTE

ARCA[illegible] ARE TOO

NEW YORK, Aug. 23.—[illegible] hour secret session, attended by representatives of seven-eighths [illegible] States and Canada, held in this city, resolutions were adopted demanding that the supreme court of the order rescind an [illegible] by the supreme council [illegible]

If this is not done, it is said there will be wholesale secessions, lawsuits. Open charges of graft and trust were made against the supreme council. The session was a secret one. A prominent Arcanumites from each of New York, New Jersey, Pennsylvania, Ohio, Massachusetts, Rhode Island and Michigan states embrace a membership of 315,000 out of the total of 375,000 under.

Gen. H. C. Cochrane of Chicago, one of the leaders of the opposition to the supreme council's action, said:

"It should be investigated fully as the affairs of life insurance companies. If anything is wrong it must be known and steps taken to stop the evil."

THE REAL BYRON

Some uncommonly wise and witty comments on the real Byron are contributed by Mr. G. S. Street to the London Outlook. He admits at once that Byron posed.

"In his earlier days he created a picture of a melancholy, misanthropic, unfortunate Byron which has led generations into ridiculous pitfalls. Byron believed him and wise men did likewise. For in reality he was the sociable and friendly fun-[illegible] delighting even in a "rag." Hobhouse, perhaps the friend he most regarded, certainly the friend who knew him and Hobhouse to embellish or [illegible]

Byron, no doubt, was unhappy on occasions, like the rest of us. But were grievously sore subjects, his melancholy might play. But it was essentially a laughing, loving life and humanity, no one of his most intimate letters, we think, doubt. The melancholy was not real, but it was often a pose—and we have noted that when a man does pose against his pose it cannot possibly [illegible] with him. There is an eminent man who was remarkable in early life for omniscience and pomposity; some of his elders thought him a miracle of learning, his closer friends, who made him pompous, knew that he [illegible] joke and loved consciously to exaggerate. We think the case was much the same with Byron's melancholy; that it was a self-conscious pose and therefore not a part of the soul, and I quite decline to believe that such an exercise of the will can be overshadowed or colored by [illegible]—or anything of much importance.

GLENWOOD, Colo., Aug. 23.—[illegible] Horn, foreman of the Rio Grande ranch here, is under arrest on a charge of assault, preferred by one of his employes. It is alleged that Horn drew a revolver and made threats against the man, which, however, he did not carry into effect. He will be given a hearing this afternoon.

SUNBEAMS BURNSCREEN AWARD SESSIONS

Wealth of Color and Beauty at Flower Show Attracts Crowds of Visitors---Judges Make Awards---Special Music Today at Afternoon Tea.

A radiant world of flowers, good music and refreshments daintily served. These are some of the features of the seventh annual flower show of the El Paso County Horticultural society, now on at ....

This is the arrangement of tents: No. 1, general floral exhibit of amateurs and professionals, including decorated tables; No. 2, ladies' tent, decorated mantel, photos of homes and landscape effects, refreshments; No. 3, children's exhibit; No. 4, California fruits; No. 5, exhibit from Glen Eyrie, potted plants, vegetables; No. 6, secretary's desk, and headquarters; entrance canopy, information and floral booth.

President W. W. Williamson, Secretary F. Horne and Treasurer F. W. Darlow are active in their assistance to Manager Stephen Clark. These gentlemen state that the exhibitions were never before so fine and that the success of the present show will eclipse all former efforts.

Tonight a great magic lantern show will be given. The Rev. Edgar W. Work will lecture and Prof. J. R. Armstrong will operate the slides. These ..... will illustrate how it is possible to beautify the dooryard of a home at comparatively small expense.

This afternoon a rich musical program will be given under the direction of Mrs. W. W. Price. Master Berlino, aged 8 years, America's most wonderful pianist, will play. Yesterday afternoon the music was afforded by the Midland band and an appreciated program was rendered.

Of the exhibits the dahlias, gladioli, sweet peas, coleus and ferns are exceptional in number, variety and beauty. General Palmer has entered for exhibition purposes only the largest individual exhibit made. It especially abounds in rare and beautiful ferns and other evergreens.

One flower which is attracting much attention is the Shasta daisy, a beality evolved by Luther Burbank. Another exceptional flower is the Alameda, a rich yellow blossom of the lily family and something with which local horticulturists are not generally familiar. Rare among the potted plants is the Kochia Scorparia which in time changes from green to crimson. Perhaps the dahlias and sweet peas excel. Of the dahlias there must be more than 100 varieties.

Many old-fashioned flowers have found a place beside their more pretentious rivals, boasting astonishing names. There is a vase of bachelor buttons besides the Salpiglossis and zenias and verbenas are near the Centaurea Imperialis. Mrs. S. B. Walker has a wonderful collection of wild flowers of Colorado which should be much prized.

Of the vegetables there is an abundance. The fruit is more than temptingly arranged, but it is entirely of California except for a miniature lemon tree which bears two very fine lemons and two banana trees from Manitou.

The special tea from 4 until 6 o'clock yesterday afternoon proved, as usual, an attractive feature of the show. The tea was in charge of Mrs. W. Kennon Jewett, chairman of the Woman's advisory board. The table was beautiful with its wealth of pink roses in their own luxuriant foliage and large clumps of pink or white sweet peas, all from the Jewett garden. Electric lights within Japanese lanterns also aided in the pretty decorative effect. The social feature of the flower show will be the tea from 4 until 6 o'clock today. Mrs. Farnsworth will have charge and her assistants will be Miss Holmes, Mrs. Lucius M. Cuthbert, Mrs. Clarence Edsall, Mrs. James H. McMillan, Mrs. S. A. Swenson, Mrs. Charles Fox Gardiner, Miss DeCoursey, Miss Gwendolen Young, Miss Violet Gardner and others. Mrs. William Wells Price has prepared a splendid musical program. Among the musicians participating will be Master David Berlino, the marvelous child pianist, Madame Berlino, Miss Laura Sandstedt, Mrs. Minola Ball, Mrs. Daniel Thatcher, Mrs. Frederick A. Faust, Mrs. Clarence C. Hamlin, Miss Winifred Funkey, Miss Pauline Prior, Miss Rena Strong, Dr. Charles G. Woolsey and C. M. Prior.

Mrs. Frederick E. Robinson will be the hostess tomorrow at the tea, and assisting will be Mrs. William Allen, Miss Lucy Hayes, Miss Mary Stuart Hayes, Miss Gwendolen Young, Miss Frances Curtis, Miss Winifred Robinson and others.

Tomorrow's musical program has been arranged by Mrs. Clarence C. Hamlin, as follows:

"Hark, Hark the Lark"....Schybert-Liszt
Miss Dwinell.

"The Denza".....Chadwick
Mrs. E. E. Tullaferro.

(a) "I Know a Lovely Garden"
.....D'Hardelot

(b) "Irish Love Song".....Lang
Miss Funkey.

(a) "Romance".....Rubinstein

(b) "Poupee Valsante".....Poldini
Miss Dwinell.

(a) "The Nightingale Has a Lyre of Gold".....Wheatley

(b) "Serenade".....Neidlinger
Mrs. Taliaferro.

"Dannie Deever" (Kipling).....Damrosch
Mr. Worthington

THREE DIVORCES IN COUNTY COURT

ARTHUR ELLSWORTH SECURES A LEGAL SEPARATION FROM WIFE FORMERLY LEOLA MAY SMITH.

In the county court yesterday afternoon three unhappily mated couples were granted decrees of divorce. The first case was that brought by Arthur Ellsworth against the girl whom he married in Justice Dunnington's court last April, and who was then known as Leola May Smith. The marriage was the result of criminal charges preferred by the girl against Ellsworth. A month ago the complaint in divorce was filed and the charges made therein under oath were of a serious nature. When the case was called for trial yesterday the charges were substantiated and the jury took but a few moments to arrive at a verdict. Judge Kerr at once signed the decree.

Pearl I. Ray was granted an absolute divorce from Geo. W. Ray upon the grounds of desertion and non-support. The couple were married at Minneapolis, Kan., on June 17, 1893, and according to the testimony presented in court yesterday the defendant deserted the plaintiff on August 1, 1902, and has not since contributed to the support of his wife and family.

Ada M. Lennell, who was married to Wm. Lennell at Newark, N. J., on April 12, 1899, was granted a decree of divorce upon the grounds of desertion and non-support.

STUDY MEDICINE ONE YEAR AT THE COLLEGE

Students at Colorado college can anticipate one year of work in the Harvard medical school and receive credit for the same.

This important announcement came to the college authorities yesterday through Prof. William L. Richardson, dean of the Harvard university medical school. The requirement of the medical school is that these students be prepared in courses covering human anatomy, physiology, histology and physiological chemistry.

The excellent laboratories at Colorado college and the high class of instruction in the scientific courses should make it easy for the student desiring to study medicine to meet Harvard's requirements.

The Harvard medical school, which is probably the best in the country, requires a college degree for admission. This is in striking contrast with the many western institutions which urge students to enter the medical or law departments direct from a high school. In the present day, when the spirit of commercialism tempts so many young men to make short cuts in the field of learning and to enter professional studies without a thorough basis of general culture, this example of the leading medical school in the country will be of great value to the western professional schools.

ASKS $2,000 DAMAGES FOR BEING ARRESTED

C. H. Wyman, a jeweler and curio dealer of Manitou, filed an action for damages in the county court yesterday against Thomas G. Miller, asking for $2,000 damages for false arrest.

The complaint sets forth that on August 12, 1905, the defendant swore to a complaint before Justice W. N. Ruby charging Wyman with assault and battery. As a result of the complaint a warrant was issued and the plaintiff was arrested in Manitou and taken to the justice court where he was obliged to give bond for his appearance for trial on August 14. When the case was called up for trial on that date the action was dismissed. The complaint further charges that the arrest of the plaintiff was published in the daily papers and was noised among the friends and customers of this plaintiff to the great damage and injury of his business and reputation.

TEXAN CATTLE KING IS VISITING IN THIS CITY

The last of 3,000 Texans to arrive in Colorado Springs for the summer is the great Long Horn of them all in respect to ownership of live stock, W. T. Waggoner of Decatur, who is the guest of his son, G. L. Waggoner, 1243 North Nevada avenue, probably owns more cattle than any other individual in Texas, or perhaps in the world. He has hundreds of thousands of acres of grazing lands and his cattle he cannot count. It was on one of his grazing ranches that President Roosevelt had his great hunt in the Indian Territory during his recent visit in the west. Mr. Waggoner is 54 years of age and has lived in Texas since his childhood, having been transplanted to the Lone Star by Kentucky parents. For many years he has been one of the noted cattle kings of America. Mrs. Waggoner accompanies him on his visit to Colorado Springs, which he will prolong until next Monday. He regrets that his large interests will not permit a longer stay.

EXTRA CLERK TO HANDLE RUSH AT TA- POSTOFFICE

In response to his telegram to the postoffice department at Washington, Postmaster L. C. Dana yesterday received an order from the department granting Colorado Springs an extra clerk for a period of 30 days to assist in handling the tourist business. Robert S. Robbins, special delivery messenger, has been appointed to assist at the general delivery and inquiry windows.

Grandma Mott's Advice to Travelers.

"You should not travel about the country this warm weather without a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mrs. Kate Mott, of Fairfield, Iowa, or "Grandma Mott" as she is familiarly known. "One or two doses of this remedy will always cure the worst case of summer complaint. We keep it always at hand, in fact, we could not keep house without it." For sale by all druggists.

WRIT OF MANDAMUS RETURNABLE AUG. 31

The alternative writ of mandamus which was granted in the case of Jas. F. Burns against the C. S. & C. C. D. Ry. Co. by Judge Cunningham prior to his departure from the city, has been made returnable before Judge Seeds on August 31, at which time the defendants are required to appear and show cause why the order of the court permitting the plaintiff to inspect the books and papers of the company has not been obeyed.

Notice was filed in the district court yesterday by counsel for the plaintiffs in Alverda and Frank Self against Alexander Adams that on Friday the plaintiffs will call up for argument their motions to strike out certain portions of the answer of the defendant.

W. H. Wise filed action in the county court yesterday against M. C. Tomberlin to recover the sum of $100 alleged to be past due upon a promissory note.

In the probate division of the county court an order was entered setting October 2 as the date for probating the will of the late Hardin Pe Shulin. The estate consists mainly of personal property which is valued at about $40,000 and some small realty that is without value.

LESTER M'LEAN GENERAL TODAY

SERVICE AT 1 O'CLOCK AT THE RESIDENCE OF PROF. E. S. PARSONS, 1328 NORTH NEVADA.

Funeral services for Lester McLean, general secretary of the Young Men's Christian association, who died Thursday afternoon after a protracted illness, will be held at the residence of Prof. E. S. Parsons, 1328 North Nevada avenue, this afternoon at 1 o'clock, and will be conducted by the Rev. E. W. Work. Following the services here the remains will be taken to Denver where another service will be held at the family residence, 1330 Gaylord street. They will be conducted by the Rev. Dr. Bayley, pastor of the Congregational church. Interment will be in the family lot at Fairmount cemetery in Denver.

In accordance with one of Mr. McLean's last requests, Charles Chapman, assistant secretary of the Y. M. C. A., and I. G. Hoffer, physical director, will be among the pallbearers acting in this capacity with Willis R. Armstrong, Hilbreth Frost, J. G. Arnold and Frederick Candwell.

The news of Mr. McLean's death came unexpectedly to many of his friends and cast a gloom over the circles in which he moved. All work was suspended at the Y. M. C. A. and the national colors, heavily draped in black, were hung from the building.

Chamberlain's Colic, Cholera and Diarrhoea Remedy

There is probably no medicine made that is relied upon with more implicit confidence than Chamberlain's Colic, Cholera and Diarrhoea Remedy. During the third of a century in which it has been in use, people have learned that it is the one remedy that never fails. When reduced with water and sweetened it is pleasant to take. For sale by all druggists.

J. I. FRANKLIN AND CO. SELLS SIX RESIDENCES

J. I. Franklin & Company tried to break all of its previous good records for a heavy day's business yesterday and six nice sales were the result. The largest transaction was the sale of an eight-room modern house and lot at 5 Cheyenne Boulevard from C. E. Maddocks to T. J. Zollars, the consideration being $4,500.

Other sales closed by this firm yesterday were as follows: Five-room house and lot, 531 South El Paso, from Osteen Lang to Mary Frick, $800; four-room house and lot, 1213 Hayes avenue, from Colombia Savings & Loan association to W. S. Laverty, $800; five-room house and lot, 548 East Moreno, and two four-room houses and lot 5, block 39, Owen & Swift's addition, from Columbia Savings & Loan association to C. E. Maddocks, $2,000; four-room house and lot, 1211 Hayes avenue, from C. E. Maddocks to W. S. Laverty, $800; three-room house, 441 Grand View, from Edward W. Kent to Ben T. Weems, $700.

COMMITTEE DID NOT SEE CITY OFFICIALS

With reference to a statement published in an evening paper to the effect that a committee from the Merchants' association had called upon Aldermen Holden, Hosman and City Clerk MacMillan to protest against a license being issued to the fruit stand at the North park, Mr. MacMillan yesterday said: "I am not seeking to enter a controversy in the public press, but I do want to deny most emphatically the statement made by the evening paper. My records show that no license has been issued to the fruit stand, and so far as I know the proprietor is doing business without a license. That being the case any citizen who is interested can file a complaint in the police court against the proprietor, A. Nassour. I have refused to issue any such license as it would be contrary to the ordinances. I wish the Gazette would also state that no committee from the Merchants' association has been to see me regarding the matter, and both Mr. Hosman and Mr. Holden tell me that no committee has called upon them."

BURNS NOW ON TRAIL OF PORTLAND G. M. CO.

James F. Burns desires to make a sweeping investigation of the affairs of the Portland Gold Mining company of which he was formerly president. Mr. Burns has addressed to the Portland directors a written request to be allowed to examine the company's books, stubs, vouchers and general records. He wishes to satisfy himself on the point of the company's management. The directors meet September 5 and Mr. Burns probably will be answered at that time.

HAD A NARROW ESCAPE FROM DEATH IN MINE

Cecil R. Johnson, son of E. S. Johnson, owner of the Blue Bird mine, was brought to this city yesterday from Cripple Creek suffering intensely from a badly mashed hand which he sustained in an accident from which he narrowly escaped death. He was several hundred feet down the Blue Bird shaft when a boulder was precipitated from above, grazing his head and crushing his right hand.

BUREAU OF MARRIAGE

J. A. HIMEBAUGH AS CUPID'S LIEUTENANT AIDS TWO OF HIS GUESTS TO BECOME ONE.

"For matrimonial arrangements see the proprietor."

This is the sign which J. A. Himebaugh, proprietor of the Spaulding house, says he intends placing above the office counter. Three weddings have occurred at his hotel within six days and he says that he feels that his experience would justify him in running a matrimonial bureau, particularly as most people who desire to get married are green hands at the business. Another circumstance to recommend him is the proximity of his house to the court house from whence marriage licenses and divorce decrees proceed.

T. S. Locke, of Oketo, Kan., and Miss Jessie Pierce, of Arvada, Colo., make the third of the Spaulding's happy bridal pairs. They met in this city by appointment, Miss Pierce being accompanied by Miss Davis, of Denver. Mr. Locke confided in Mr. Himebaugh, who at once proceeded to get the happy event under way. He procured a marriage license and the services of the Rev. C. B. Wilcox. At 2:30 p. m. the principals and witnesses were invited into a private parlor of the Spaulding and five minutes later the Spaulding register bore the inscription, "Mr. and Mrs. T. S. Locke, Oketo, Kan."

Sudden Attack of Dysentery Cured.

A prominent lady of Brooklyn, N. Y., writes to inquire where she can obtain Chamberlain's Colic, Cholera and Diarrhoea Remedy. She says: "While stopping at a ranch in South Dakota I was taken ill of what seemed to be cholera. They gave me some of this medicine and it cured me. I brought a bottle home and have just used the last of it today. Mother was taken suddenly ill of dysentery and it helped her immediately." For sale by all druggists.

TO TRY DRY FARMING IN TEXAS PANHANDLE

The light of Prof. Campbell, the famous dry farming expert of Kansas, is to shine in Texas. John F. Burns, formerly division superintendent of the Denver & Rio Grande, with headquarters at Denver, is now one of the big land owners of the Panhandle, and he is enthusiastic over the dry farming idea. Mr. Burns passed through Colorado Springs yesterday en route to Texas from a visit to Prof. Campbell at his Kansas ranch and he declares that he will at once establish two large ...rial farms in the Panhandle to show the world the possibilities of that rich agricultural belt with the use of little water. He is at the head of a gigantic land scheme and his company will get value received from the advertisements to be derived from the experimental farms.

CERTIFICATES OF HEALTH ARE GRANTED TO VISITORS

Sixteen certificates of health were granted by Dr. P. O. Hanford, chief of the local health department, yesterday to citizens from the south who are preparing to return home. The list follows: Mrs. John Finnegan and daughter, Dallas, Tex.; Miss Anna Harrison, Dallas, Tex.; Dr. P. E. Tanner, Shreveport, La.; Mrs. T. B. Floyd, Dallas, Tex.; Mrs. Emma Pierson, Paris, Tex.; Miss Faula O'Neal, Memphis, Tenn.; Elmer H. Wainright, Memphis, Tex.; Mrs. H. E. Gray and son, Dallas, Tex.; B. Bennet, Dallas, Tex.; Henry W. Wood, Birmingham, Ala.; A. A. Nolan, Dallas, Tex.; Mrs. A. J. Smith, Dallas, Tex.; Miss Fanny E. Hoyt, Atlanta, Ga.; J. Wallace Hoyt, Atlanta, Ga.

Denver & Rio Grande,

Monday, Aug. 28

ROUND TRIP

$3.00

There is absolutely nothing in the Rocky Mountain region to equal the scenery of the Grand Canon of the Arkansas. It is truly named the Royal Gorge and is reached only by the Denver & Rio Grande.

FAREWELL RECEPTION TO REV. MR. BRAISLIN

A farewell reception to the Rev. Edward Braislin, the retiring pastor of the First Baptist church of this city, will be tendered Friday evening from 8 to 11 o'clock at the residence of Mr. and Mrs. Frank M. Woods, 1306 North Cascade avenue. Dr. Braislin will on this pleasant occasion meet the members of his own congregation and many other warm friends who have come to know and admire him during his brilliant Colorado Springs pastorate. The resignation of few Colorado ministers has caused a regret so general.

D. & R. G. WILL RUN ANOTHER POPULAR EXCURSION TO ROYAL GORGE MONDAY, AUG. 28. ROUND TRIP $3.00.

9 a. m., 10 a. m., 12:30 noon, Elks' Barbecue trains, D. & R. G.-Rock Island depot, Aug. 24. $1.00 includes trip and barbecue. Secure tickets Midland Route office, 9 N. Tejon St.

$2.00 DENVER AND RETURN $2.00 via C. & S. every Sunday. Ten trains there and the latest returning.

CHINESE FANATICS COMMIT OUTRAGES

VANCOUVER, B. C., Aug. 23.—Word is received by the steamship Empress of China, of an outrage in Yunnan province, showing the revival of fanatical antagonism to Christian colonization.

Official advices reaching Peking state that a mob of 1,000 Buddhist llamas, by a preconcerted arrangement one day drove the Christians out of their province and attacked the various French Catholic establishments on the coast of Sawabo, wrecking one church and killing many priests, the number being stated at between eighteen and twenty-three, with other wounded. The French minister at Peking has made strong protests to the Chinese minister, demanding effectual punishment.

LOOMIS AT WORK.

WASHINGTON, Aug. 23.—Assistant Secretary of State Loomis returned to the department today and resumed his duties as acting secretary. He will remain here several days.

PRETTY WIFE HELPS IN SWINDLING DEAL

NEW YORK, Aug. 23.—In the arrest last night of Carl H. Hoffman and his wife Elizabeth, a handsome girl of about 18 years, the police assert they captured the perpetrators of real estate swindles in the Bronx amounting to thousands of dollars. The Hoffmans claim Los Angeles as their home. Circulars are alleged to have been sent all over the country recently by a detective agency seeking to arrest the couple.

According to the detectives, Hoffman called at the office of a real estate broker last Friday and tried to make a deal for a house in the Bronx for which he claimed to have a buyer. At a later meeting for transferring the property the agent alleges that Hoffman handed over to him to bind the bargain a check for $2,000, purporting to have been drawn on the Bridgeport National bank, signed by "Sahr" and apparently properly certified. The agent then handed Hoffman a check for $365 as his commission. This was soon deposited by Mrs. Hoffman, who drew against it for $150. When the real estate agent took the $2,000 check to the bank, however, it was learned, so the police charge, that no certification of that paper had been made by the Bridgeport bank. The police were at once called in and succeeded in capturing the Hoffmans a few hours later.

FIRE IN CALIFORNIA.

OROVILLE, Cal., Aug. 23.—A fire which for a time threatened to wipe out the entire city, broke out here at an early hour this morning. Before it was under control an entire block was destroyed. Several firemen were badly injured, three of them fatally, it is believed. The names of the latter are John Preston, Frost and X. Soski. A number of people are reported missing. The loss is estimated at $150,000, one-third covered by insurance.

G. B. Burhans Testifies After Four Years.

G. B. Burhans, of Carlisle Center, N. Y., writes: "About four years ago I wrote you stating that I had been entirely cured of a severe kidney trouble by taking less than two bottles of Foley's Kidney Cure. It entirely stopped the brick dust sediment, and pain and symptoms of kidney disease disappeared. I am glad to say that I have never had a return of any of those symptoms during the four years that have elapsed, and I am evidently cured to stay cured, and heartily recommend Foley's Kidney Cure to any one suffering from kidney or bladder trouble. For sale by Hefley Arcularius Drug Co.

110 N. Tejon St.

NEW YORK VETERANS LISTEN TO ADDRESS BY FAIRBANKS

OGDENSBURG, N. Y., Aug. 23.—In the presence of Vice President Fairbanks, veterans of northern New York united with Ransom Post G. A. R. here today in unveiling a beautiful monument in Liberty park, commemorating the patriotism of soldiers of the town of Oswegatchie who fell in the civil war. The largest crowd in the town's history witnessed the ceremonies. A military parade, including the Victoria rifles of Brockville, Ont., was reviewed by Mr. Fairbanks. Mr. Fairbanks was the principal speaker in the exercises. He said in part:

"As we stand here in the presence of this imposing evidence of a people's reverence and gratitude, we pledge anew our fealty to the institutions provided by the valor of soldiers and sailors of the republic. We are to go forward, meeting with brave hearts the burdens which rest upon a great people. Advancing and expanding power bring new tasks, new questions, but the principles which should govern us in meeting them do not change. The principles of common history and common justice among men were the same yesterday as they are today, and they will not change with the coming years. Our obligations to the state is not intermittent. It rests upon us, whether in the midst of peace or in the midst of war. Our civic duties must me well discharged, if we would prove a strong, clean government—one that we must have if we are to attain our highest destiny. We teach life of liberty; we inculcate the doctrine that the only way to maintain freedom in its best sense is to observe the laws—the law established by the wisdom of high-minded and patriotic lawmakers, chosen by a free and patriotic electorate. Our laws should be preserved from the contaminating touch of selfishness and they should be enforced fearlessly and without favor. There should be neither partiality in the enactment of the law nor partiality in its enforcement. It was for such equality the soldiers and sailors of the civil war were involved in one of the mightiest chapters in human history.

"We most esteem men who are for their country for their country's sake, who are for the law for the sake of the law, and who do not take thought first of their mere personal aggrandizement.

"I bring you the cordial greeting of President Roosevelt, who greatly regrets inability to join with you in the dedication of this monument to its exalted purpose.

"This monument had its inception in a noble, patriotic impulse. It will stand as the symbol of the gratitude of a great people for the services and sacrifices of brave men, who, more than a generation ago went down on the battlefield to preserve the integrity of the great republic. It will teach a great and wholesome lesson to the present and to future generations. It will recall the deeds of one in the supremely perilous hour of our national history and it will emphasize the fact that men are honored most who help their fellowmen. This memorial has yet higher significance. It has a meaning for those who hold it which no formal words can adequately express. It stands as a pledge of national unity. It stands for the everlasting supremacy of one flag. It inspires a deeper love of liberty."

When Vice President Fairbanks had finished the thousands pressed forward to shake hands with him.

The monument is a Roman column designating "The Spirit of Liberty," standing 40 feet high, surmounted by a bronze figure of Liberty and guarded at the base by war eagles.

KC BAKING POWDER

is the wonderful raising powder of the Wave Circle. Thousands of women are bringing greater health and better food into their homes by using K C Baking Powder. Costs just one-third what you always pay. If you have never used it you don't know what you've missed. Don't wait! All grocers.

COULD FOR PRESIDENT OF WABASH RAILROAD.

NEW YORK, Aug. 23.—George J. Gould was elected president of the Wabash railroad by the board of directors before he sailed recently for Europe. News of his election to succeed Jos. Ramsey was obtained only yesterday, when it was stated that on return Mr. Gould will become president of the Wabash system.

SECRETS GUARDED.

OYSTER BAY, Aug. 23.—J. W. McGrew, one of the White House stenographers who yesterday was at Portsmouth on a mission for President Roosevelt in connection with the peace conference, returned to Oyster Bay today. Whether he brought with him a communication from the Russia envoys could not be ascertained for the reason that the official denial that he was in Portsmouth is still adhered to.

The president again today was in communication with Assistant Secretary Pierce at Portsmouth, but no indication of the nature of the message transmitted was given.

MURDERER RIDDLED.

SELMA, Ala., Aug. 23.—Oliver Lett, a negro, shot and killed John Helton, white men, today. Lott then barricaded himself in a house, and when a posse surrounded the place, shot and mortally wounded G. Talley, its leader, a mill owner. The posse then fired into the building and set it afire. Lott's body, riddled with bullets, was found in the ruins.

WHOLE FAMILY DROWNED.

MAYSVILLE, Ky., Aug. 23.—A family of seven, named Gates, have been drowned in the river between here and Dover, their shanty boat having been run down and demolished in midstream by a tow boat. The family, consisting of Gates, his wife and five children, were asleep when the accident occurred. The shanty boat had been tied to shore, but had broken loose during a storm.

RESIGNS HIS POST.

OYSTER BAY, Aug. 23.—Edwin B. Conger, of Iowa, has resigned his post as American ambassador to Mexico to take effect October 18, next, and President Roosevelt has accepted the resignation.

It has not been determined definitely yet who will succeed Mr. Conger as ambassador to Mexico, but it will probably be David E. Thompson, of Nebraska, now American ambassador to Brazil. It is known that Mr. Thompson desires the post.

BUILDING SOLD CHEAP.

ST. LOUIS, Aug. 23.—The United States government building at the Louisiana Purchase exposition, erected at a cost of $500,000 has been sold to a wrecking company for $10,500. The steel trusses in the structure alone cost $100,000.

Specials today at Vorhes.

FIRE IN STEERAGE OF WHITE LINER OCEANIC

LIVERPOOL, Aug. 23.—Fire broke out this afternoon in the steerage of the White Star line steamer Oceanic, but it was promptly extinguished by the crew. The damage was trifling. The Oceanic sailed for New York at 5 o'clock this afternoon, according to schedule. Her passengers include Anthony Fiala of Brooklyn, leader of the Zeigler polar expedition, the members of which were recently rescued by the relief ship Terra Nova, and Chief Justice Fuller of the supreme court of the United States.

WOMAN AUTOMOBILIST IS UNDER ARREST

CLEVELAND, Aug. 23.—Mrs. A. H. Bailey, wife of a prominent manufacturer, was placed under arrest today on a charge of manslaughter. An automobile, which Mrs. Bailey was operating, struck, and so badly injured Joseph Broestel, that he died from his injuries. Mrs. Bailey was released on bail.

FIRE IN CHICAGO.

CHICAGO, Aug. 23.—Fire at the plant of the Weir & Craig Manufacturing company, 2421 Wallace street, caused a loss of $70,000 early today. The firm manufactured plumbing supplies.

STORK TIME

to most women is a term of anxiety, serious thought and sweet anticipation.

With the cessation of pain necessary to childbirth, there comes calm nerves, sleep and recuperation.

MOTHER'S FRIEND

does diminish the pain accompanying maternity. With its aid mothers can and do bring healthy, sweet dispositioned and ideal babies into the world.

Morning sickness, sore breasts and excruciating pains caused by the gradually expanding organs, are relieved by this penetrating and relaxing liniment.

Among the manifold aids to childbirth **Mother's Friend** has grown in popularity and gained a prestige among rich women as well as poor; it is found and welcomed in the mansion as well as in the cabin.

By lessening the mother's agony of mind and diminishing pain a beautiful influence is wrought upon the child, and instead of peevish, ill-tempered and sickly females you have healthy, laughing humanity, remaining a blessing ever to you and its country.

All Druggists sell Mother's Friend at $1.00.

THE BRADFIELD REGULATOR CO., Atlanta, Ga.

GEORGE MARSH NOT THE MURDERER OF BATE

BROCKTON, Mass., Aug. 23.—The case against George L. Marsh, who was arrested by Chicago officers on suspicion of being connected with the Bate automobile murder in Illinois, was dismissed by the local court today. The Chicago police today informed the Brockton authorities that there was nothing to indicate that Marsh had anything to do with the murder.

WAS WASTING AWAY.

"I had been troubled with kidney disease for the last five years," writes Robert R. Watts, of Salem, Mo. "I lost flesh and never felt well and doctored with leading physicians and tried all remedies suggested without relief. Finally I tried Foley's Kidney Cure and less than two bottles completely cured me and I am now sound and well." During the summer kidney irregularities are often caused by excessive drinking or being overheated. Attend to the kidneys at once by using Foley's Kidney Cure. For sale by Hefley-Arcularius Drug Co.

The D. & R. G. Ry. will run another excursion to Royal Gorge Monday Aug. 28. Round trip $3.00.

BOARD OF ARBITRATION.

Special to the Gazette.

CRIPPLE CREEK, Aug. 23.—A board of arbitration was today appointed by different sides of the controversy in the dispute which has arisen among the county commissioners, Architect Smith of Colorado Springs and Contractor Devy of Victor, regarding certain parts of the Teller county building. It is believed a settlement will soon be reached.

$40.00—ROUND TRIP—$40.00.

TANTALIZING TURNS IN BENNETT RACE

Vanderbilt Contest—Pike's Peak Climb

AUTOMOBILISTS are not waxing enthusiastic over the coming race for the James Gordon Bennett cup. The contest is to be held in France, starting July 5. The course, experts agree, is as bad and unpromising as could possibly be chosen, and some of the entrants are thinking of doubling the amount of their life insurance.

No less than 140 turns must be made by every man who covers the entire course. Moreover, the course is so narrow that in only five places is there sufficient room for cars to pass each other.

An Expert's Opinion.

Said a well known autoist recently: "Either the race will be painfully slow owing to cautious drivers or else a series of accidents rivaling those of the sanguinary Paris-Madrid race of 1903 will occur.

"Mark my word, there will be tragedies along the Bennett course if the autoists seek to cut down records or to push their machines to the limit. I don't want to be classed as a calamity howler, but the ambulances will be busy and so will the repair shops repair shops for both human beings and machines."

Conditions In France.

It would seem from all accounts that the committee appointed to lay out the course for the race was incompetent. Perhaps, however, inhabitants along more favorable routes protested against the race so vehemently as to bring about changes in the original plans. In France, however, auto racers have a far easier time than those of America and England, for in France the national and local governments recognize the contests and award protection to race promoters. The tremendous scope of the auto industry in France warrants such a course of procedure.

Americans Desert the Race.

The Bennett cup course is 340.3 miles long. Americans are not giving the race the support that its managers counted on. The Vanderbilt race now attracts several of the entries that formerly went to the Bennett. The directors of the Vanderbilt race have their plans well under way for the next contest for the "blue ribbon of the American auto world." It will be held on the roads of Long Island, N. Y., as before, although a somewhat different course has been decided on.

Four Nations Entered.

Thus far representatives of four nations have entered for the Vanderbilt trophy. They are German, French, Italian and American. One of the entries from the land of the kaiser is that of an American, Robert Graves, whose 120 horsepower car is to represent the Automobile Club of Germany. Eleven different makes of American cars have already been entered.

France is to enter a total of five cars, which will be determined on at the close of the eliminating trials for the Bennett cup.

Robert Lee Morrell, chairman of the cup commission of the American Automobile association, is of the opinion that the coming race will put the first held for the Vanderbilt trophy far in the shade. At any rate, American manufacturers have rallied to the support of the race in gratifying fashion.

Auto Climb Up Pike's Peak.

Considerable interest has been awakened in the auto run up Pike's peak which is to occur during the third week in September. This contest will probably be the greatest trial for autos ever held in this country.

The lofty Colorado peak is known the world over, and the man and the machine that first reaches the top, if, indeed, any one reaches it, will certainly win enough glory to last for a few weeks.

Pike's peak stands at the extreme eastern edge of the great Rocky mountain chain that forms the backbone of America. It is 9,009 feet high (almost two miles). The route covered by the autos, however, covers no less than fourteen mile—

The official announcement of the course is as follows:

"The climb will take the route of the old carriage road to Ute pass. At the foot of Ute pass is Cascade, several miles west of Colorado Springs.

Following Ute pass beyond Cascade, one encounters a fork in the road about half a mile west, and there the actual climb up the peak is begun. The first two miles of the road lead right up over the brow of the mountain's side, over a succession of steep grades, gullies and rocky roads. When the distance is covered one is only about a mile from Cascade. Then comes about eight miles of fairly good road, steep, of course, but on an average of about 10 per cent. Some places it will reach 18 per cent or possibly more, and at others it is about 3 per cent. Then comes the famous "W." As its name indicates, it is a W shaped piece of road, a zigzag trail cut in the side of a sheer precipice. Timber line is soon reached, and then the cone of rock which forms the top of the mountain is encountered and the summit is quickly surmounted, though not without a very hard pull.

Fournier Again Coming Over.

Henry Fournier, the European professional champion, announced in Paris recently that he is soon to visit America with a new 100 horsepower machine that should establish new records here. The leading American records were made with ninety horsepower cars.

Barney Oldfield of Detroit, holder of almost all the circular track records of this country, is anxious to have a shy at Fournier. He will challenge the Frenchman immediately on his arrival. Oldfield believes that neither Fournier nor any one else can break the former's mile record (circular track) of 53 seconds. It is stated on good authority that the French speed demon has made the breaking of this record the object of his coming visit. There will be "lots doing" when he starts after Oldfield's scalp, as the Detroit expert is jealous of his accomplishments.

Fournier is primarily a straight away racer. He has had very little experience on circular auto tracks, as they are almost unknown in France.

CHARLES E. EDWARDES.

ADELAIDE KEIM, YOUNG ACTRESS WHO PLEASES AS HAMLET.

Adelaide Keim is a young woman of striking ability as an actress who is certain to rise to the ranks of the full fledged stars much sooner than precedent would warrant. At the Harlem Opera House, New York, she is appearing at the head of a stock company and is presenting a series of well known plays.

Recently Miss Keim produced "Hamlet," playing the role of the Danish prince herself. Her performance was in most respects praiseworthy and evidenced the possession of unusual talent. Her makeup was particularly good. She is the daughter of Henry Keim, manager of the Harlem Opera House.

THE SCISSORS HOLD, A NOVEL WRESTLING TRICK.

In the illustration George Bothner, the world's champion lightweight, is shown executing one of his cleverest tricks. It is the scissors hold. Bothner draws his opponent between his legs, as shown, grapevines his feet and presses the upper knee into his victim's stomach. This pressure is very painful and cannot be resisted as the under man's head is held down by his opponent so that he cannot sit up. Also, the under man's "near arm" is securely held, as shown.

"RUBE" WADDELL.

"Rube" Waddell, the star pitcher of Connie Mack's Philadelphia Americans (or Athletics), is famous throughout the length and breadth of America. Perhaps in all baseball times has he become so widely known and discussed as George Edward Waddell, as he styles himself, otherwise called "Rube."

He has been called erratic, eccentric, stubborn and a host of other adjectives to describe his mood and temperament, but one thing which critics without exception say of "Rube" is that Waddell is one of the greatest pitchers of recent years.

He was not with the Athletics at the opening of the season owing to an ailment of the neck. However, Manager Mack says the pitcher is otherwise in the pink of condition and as effective as ever, as his record shut out of the Washingtons the first day of his return to the game would indicate.

During the winter months he starred in "The Stain of Guilt." "Rube" is somewhat of an actor, but his name will be connected with some of the greatest pitching feats in the history of baseball for ages to come.

Despite the fact that "Rube" has been in the game for more than ten years, he seems as invincible as ever and showed to Connie Mack a few days ago that his trusty arm is as powerful as it was in 1902 when he won a pennant for the Athletics.

"Rube" has little use for the spit ball, preferring to use his speed and wonderful assortment of curves.

THIS OFTEN HAPPENS, 'TIS SAID.

"My drive from the eighth tee was a peach that dropped a clean 250 yards away. You know, playing up to the eighth hole is no easy work, but after that corking drive I felt good and ripped the next one with my brassie 200 yards.

"A beauty of a midiron shot of 150 yards dropped the ball plump on the putting green where it fell dead, and it looked good to me for heating the bogie of five. I got awful chesty as I grabbed the putter from my caddie and loped for the flag.

"The drafted ball, however, was fully fifteen feet from the hole, but I felt better than ever and felt sorry for Travis, Anderson and that bunch of dubs. Sure enough, I holed out in four, which, you see, tell you I felt immense, contemplating looked so admiringly at me.

"Just as I was thinking of increasing the speed to a mile a minute and found my hand clutching the cold round end of a knob on the brass head, but those were bee-utiful snake fellows, even if I did dream 'em."

OPERA STATISTICS.

One of the musicians in the orchestra that returned to New York with the Henry W. Savage "Merry Widow" company made some very interesting statistics as to the amount of work performed that had been handed out to the country by this organization. He calculated that in the two seasons the company had given there were 800 acts which contained 96,384 bars of music in which there were 4,675 bars to a performance. The opera contains 25 cities and 27 states, and the time occupied by performances of "Merry Widow" was 189 days or 571 hours or 32,211 minutes.

OGDEN AND COQUETTE.

J. R. Hull, a British cotton merchant, recently purchased in San Francisco the stallion Ogden, sired by Egyptian Prince, out of the great brood mare Hattie, dam of Monterey, 2:09¾, and Montana, 2:13. He also bought the trotting filly Coquette, by Owyhee, 2:11, the dam of Coquette, by Wilton, second dam Julia Clay by Harry Clay. She is a two-year-old.

C. M. DANIELS, NOTED SWIMMER.

C. M. Daniels of the New York Athletic club is the holder of three national swimming records. He is now abroad competing against the European stars.

"Danny," as he is best known, is regarded as the one American who has a chance to equal the sensational records made by English and Australian swimmers.

LAST DOLLAR PROPERTY TO RESUME OPERATIONS SATURDAY

Special to the Gazette.

CRIPPLE CREEK, Aug. 23.—The Last Dollar Gold Mining company announced today that operations are to be resumed Saturday morning next after a suspension of two weeks, which was necessitated by certain repairs which were made on the hoisting machinery.

The machinery arrived at the mine today and work of installing it was commenced at once. When it is completed the company will be able to handle at least 50 per cent more rock than was ever handled on the mine before.

Manager Finch has notified the lessees who were working on the property when the close-down occurred that all those who had ore when the mine was closed will have their leases renewed, which is good news to a great many people working there. There were some 15 sets of lessees, employing in the neighborhood of 100 men and sending out a tonnage of from 800 to 1,000 tons per month. Besides the operations of the lessees the company was working quite a force of miners in the lower levels. Especially was this so in the eighth level where they were breaking and shipping four feet of ore that was giving values of anywhere from two to five ounces to the ton.

E. M. De La Verne, general manager of the Elkton Consolidated company whose property has been partially closed for several weeks making some needed repairs and retimbering the shaft, announced today that operations would be resumed about September 1. The Elkton usually employs in the neighborhood of 125 men, so between the two properties, employment will be given to close to 250 men who have been idle for several weeks.

AGNES LESSEES ARE PUSHING WORK ON BEACON HILL CLAIM

Special to the Gazette.

CRIPPLE CREEK, Aug. 23.—While development work has not been carried forward sufficient to state it as a fact, the Agnes property on Beacon hill now has all the earmarks of a good producer.

Pierson Bros., who have a lease on the property are pushing development work ahead at a rapid rate and at a depth of 110 feet they have opened between two and three feet of ore that from their assays will return values in the neighborhood of $30 to the ton.

The formation is characteristic of the famous C. K. and N. mine on the other side of the hill and as the C. K. and N. rich vein trends in the direction of the Agnes property it could not be surprising if the vein they have opened should prove to be one of the same, although it is yet too early to make that statement for a fact.

Just what the rock will average when shipped and smelted is hard to tell, but it is believed that it will average around an ounce and a half to the ton. Ore is now being saved for their initial shipment which will leave the mine in the course of a few days.

CRIPPLE CREEK MINING STOCKS

Special to the Gazette.

CRIPPLE CREEK, Aug. 23.—Sales amounted to 40,000 shares on the exchange today, as follows: Acacia 5000 at 97½; American Consolidated, 3000 at 3¾; Blue Bell, 2000 at 42½; Dr. Jack Pot, 5000 at 3½; Elkton, 2000 at 42½; Isabella, 2000 at 29; Ida May, 4000 at 4½; Little Nell, 5000 at 2; McKinney Extension, 3000 at 27; Princess, 5000 at 15½; Rose Maud, 4000 at 4; Zoe, 2000 at 1¼.

BANNEROT DOING MUCH WORK SOUTHWEST OF CITY

Special to the Gazette.

CRIPPLE CREEK, Aug. 23.—A. A. Bannerot, owner of a large number of claims, situated several miles southwest of the city, is pushing development work through a tunnel which has now been extended in for a distance of 750 feet. On an adjoining claim Sam Johnson of this city is pushing the work of development from a shaft which has been sunk to a depth of 50 feet.

Both of the operators have such indications that they are positive they are nearing an ore shoot. Besides these operators there are numerous other parties systematically operating their claims and nearly every one of them is sanguine over the prospects.

BIG MINES ARE HANDLING LARGE QUANTITY OF WATER

CRIPPLE CREEK, Aug. 23.—The Independence Consolidated, Vindicator and Golden Cycle properties are being troubled more or less with water and all the mines have their pumps running to keep the water out of the mine. The [illegible] minute, with the Vindicator and Golden Cycle drawing out about the same quantity which makes close to a million gallons of water each 24 hours that leaves the mines.

9 a. m., 10 a. m., 12:30 noon, Elks' Barbecue trains, D. & R. G.-Rock Island depot, Aug. 24. $1.00 includes trip and barbecue. Secure tickets Midland Route office, 9 N. Tejon St.

BIG HOOSIER DEAD.

CHICAGO, Aug. 23.—Philip Kerrigh, known as "Indiana's 700-man," is dead at his home in Stilesville. He had been ill for several months with dropsy and suffered greatly during the hot weather.

For several years Kerigh was in the employ of a circus, where he was exhibited as the largest man in the world. His weight often reached 775 pounds. He was over six feet high, but his bones were very small. It required two tailors to take measurements for his clothes, as it was impossible for one man to reach around his body. It took seven yards of double-width goods to make him a suit.

WAS IN POOR HEALTH FOR YEARS.

Ira W. Kelley of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Refuse substitutes. For sale by Hefley-Arculatius Drug Co.

AMERICAN BAR MEETING.

NARRAGANSETT PIER, R. I., Aug. 23.—Prominent jurists from all parts of the United States are gathered here to attend the opening sessions today of the twentieth annual meeting of the American Bar association. Among those present were Justices White and [illegible] of the United States Supreme court, and many professors of the various law schools connected with the great American universities. The conference will last for two days. Henry St. George Tucker, of Lexington, Va., today delivered his address.

WORK ON WOMACK HILL.

Special to the Gazette.

CRIPPLE CREEK, Aug. 23.—Oscar Foreman, who is operating under lease the T. E. Merritt claim on Womack hill, has installed a new plant of machinery and expects to push development work twice as fast as it ever was before.

PRICES MAKE ADVANCE GAINS

Improved Outlook for Peace a Potent Factor in the Stock Market.

Threats of Rain to Hinder Harvesting and Foreign Advices Favor Bulls.

NEW YORK, Aug. 23.—The improved outlook for peace at Portsmouth was a potent factor in shaping the course of today's stock market. This same feeling was reflected in the foreign market. Trading kept pace with the large volume of the previous day with a number of substantial advances and a wider distribution of business.

Reading and the Eries were less conspicuous, their places being taken by a number of high grade railway and industrial shares. Nevertheless Erie common and second preferred advanced to new high records. Reading recovered to within a fraction of its record price but was later irregular.

Trade reports at hand today bore closely upon coal, copper and iron and steel conditions. The United States Steel shares were more active and strong than for some days. Pennsylvania led the active list in the early dealings and Baltimore and Ohio, Union Pacific, Southern Pacific and St. Paul were prominent, the latter, however, losing some of its early gain. There was quite a movement in the Gould group. Missouri Pacific advancing smartly with marked gains in all the Colorado & Southern shares.

The last hour was the dullest period of the day. Heavy realizing in the active list was largely responsible for the general declines, none of which, however was very severe. Operators in the various pools seemed to have expended their ammunition and traders as a class were cautious to the extent of carrying few over night commitments. In the last few minutes of trading there came a fresh outburst of speculation which carried stocks to the day's best prices and drove the shorts to cover once more. London was reported to have bought a considerable amount of stocks in this market on orders for local account and for the continent. Local money conditions continue easy.

Bonds were steady. Total sales, par value $4,130,000.

United States bonds were all unchanged on call.

METALS

NEW YORK, Aug. 23.—Lead, firm, $4.60 @4.70; copper, firm, 18@18½c.

GO WITH THE CROWD MONDAY, AUG. 28, THROUGH ROYAL GORGE VIA D. & R. G., $3.00 ROUND TRIP.

CHICAGO, Aug. 23.—Possibility of interference by rain with harvesting was the indirect cause of a firm market for wheat here.

Early foreign advices favored the bull side of the market, although late cables quoted prices lower. Traders were seemingly in a waiting mood and business was light. September opened a shade higher to a shade lower, at 80½ to 80⅝ and under a slight selling pressure went off to 80¾@⅞. Offerings were off on indifferent trading and prices readily responded to an advance in the northwestern markets. Minnesota and South Dakota reported rain with indications of a continuance of showery conditions. Millers were said to have bought quantities of September wheat against sales of flour for future delivery.

Local shorts became apprehensive and their efforts to cover, meeting with restricted offerings sent prices upward. September advanced to 81. Profit taking brought about a recession from the high point. The close was steady with September at 80¾.

A good demand for export held corn prices steady at a small advance. September started ⅛ up at 53 and except for an early dip to 52¾ showed a steady improvement. The close was at the high point for the day with September at 53⅜.

Oats were dull. September opened unchanged to a shade lower at 25⅝ to ¾ and closed steady at 25¾@⅞. Local receipts were 182 cars.

Provisions advanced under large purchases by packers and for shipping account. September pork closed 12½c up at $14.50. Lard is 7½@10c higher at $7.92½@7.95. Ribs 12½c higher at $8.95.

It's not mere whim or caprice—it's simply human nature to be

ALWAYS WANTING SOMETHING

And it's a sign of good mental health—just as a vigorous appetite is a sign of good physical health.

Of course appetite would be an embarrassment if we could obtain no food; and that "want something feeling" would be a calamity if we could never satisfy it.

BUT YOU MAY HAVE NOTICED THAT GAZETTE WANT ADVERTISERS ARE NOT ONLY "ALWAYS WANTING SOMETHING;" THEY ARE "ALWAYS GETTING SOMETHING."

FOR SALE—MISCELLANEOUS.

FOR SALE—AT A BARGAIN—Two-seated automobile, in first-class condition, complete with extra tires, tools, lamps, headlights, etc. THE HASTINGS-ALLEN REALTY AND BUILDING CO., 22 N. Tejon.

INFANT DIED—Llewellyn H. Griffith, the six-months-old child of Mr. and Mrs. Llewellyn Griffith, of Manitou, died yesterday morning. The funeral services will be held from the residence in Manitou this morning at 10 o'clock. Interment will be in Evergreen cemetery.

WITH THE POLICE

City detectives have been busily engaged in unraveling the mystery of two trunks, one belonging to Miss Dorothy L. Murphy, of Ottawa, Kan., and the other the property of Miss Hallum, of Pine Bluffs, Ark. Letters were recently received from the two young women, Miss Hallum saying that her trunk had not been received and Miss Murphy saying that she had received a trunk which did not belong to her. It was found that the trouble was due to wrong checking, the Arkansas trunk going to Kansas while the other still remains in the depot here.

Ralph Ray, one of a delegation from the Y. M. C. A. of Des Moines, Ia., which arrived in the city Tuesday night, reported that a suit case and overcoat containing a pocketbook with $13 had been stolen from their car. The matter was turned over to City Detective Threlkeld who discovered that the suit case had been checked at Des Moines as baggage and it is now in the Rio Grande baggage room awaiting the presentation by the owner of a baggage check.

Three men who have been before the police court upon various occasions for drunkenness were arraigned before Judge Toombs yesterday upon the same old charge. They gave their names as Andy Donovan, J. Wright and John Dempsey, and the court sentenced them to $20 and costs each. John Johnston, who told Capt. Stewart at the time of his arrest that he had slept in box cars for the last 30 days, was found guilty of being intoxicated and vagrancy, and was fined $25 and costs. John Bagley, Frank Kennes, Albert Mueller and Mike Byron are the names given by four men charged with vagrancy. They were fined $10 and costs each.

Our Mighty Silk Purchase

Has caused considerable excitement among the thrifty women of this vicinity. Yesterday, the first day of the sale, we heard nothing but praises. Many prudent women took advantage of the occasion, several buying three and four dresses.

Today will be a greater day, as the event will be more widely known.

This is an immense purchase of suiting silks in autumn styles, bought by our buyer, Mr. Giddings, while in New York. There are hundreds of yards—all that a big manufacturing concern had left. They were anxious to sell the lot as it cleaned up their entire stock. An offer was made and they accepted.

These silks would sell ordinarily for $1.00, $1.25 and $1.50 a yard. We secured them at a remarkably low figure and have marked the lot at exactly the same ratio of saving as our purchase price. See our window display. Your choice of the lot at, yard,
